The New Deal and American Youth Richard A. Reiman, 2010-06-01 When President Franklin Roosevelt formed the National Youth Administration NYA in June 1935 he declared that it would address the most pressing and immediate needs of American young people In this book Richard A Reiman explores the various and sometimes conflicting ways in which the NYA planners and administrators defined those needs and attempted to answer them As Reiman notes the NYA was established to assist the millions of youth who during the Depression years were out of school out of work and ineligible for the New Deal s own Civilian Conservation Corps Contrary to popular belief he argues New Dealers did not envision the NYA primarily as a junior WPA a trigger for civil rights reform or a springboard for the careers of liberal administrators Rather its designers saw it as a reform agency that would advance and protect democracy by countering totalitarian appeals to young people and by equalizing educational opportunities for rich and poor Woven into the successive drafts establishing the NYA these twin purposes united the programs of planners as disparate as Aubrey W Williams Mary McLeod Bethune John Studebaker Eleanor Roosevelt Charles Taussig and FDR himself Like their separate agendas Reiman shows the planners shared concerns for democratic values were the products of thinking that had arisen during the Progressive Era a time when an awareness of the social effects of child development first occurred During the 1930s fears of fascism and totalitarianism added fuel to these concerns and shaped much of the nature of the NYA s prewar appeal Based on a wide range of sources including NYA related documents at the National Archives and at the Franklin D Roosevelt Library *The New Deal and American Youth* is the first full length study of this important agency By showing how the NYA served as an instrument for realizing so many New Deal ambitions it offers rich insights into both the NYA and the New Deal [The Federal Reserve Bank of New York Discount Window Advance of \\$22.6 Billion Extended to the Bank of New York](#) United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on Domestic Monetary Policy, 1986 *New Deal Medicine* Michael R. Grey, 2002-05-24 In *New Deal Medicine* physician and historian Michael Grey brings to light the diversity reach and complexity of the medical care programs of the Farm Security Administration Drawing on oral histories archival records and medical journals from the 1930s and 1940s Grey finds the programs were both a rehearsal for more modern forms of medical organization and a lightning rod for critics of socialized medicine He assesses the compromises made to try to preserve the programs somewhat secret objective of providing the poor with health care while not running afoul of conservative politicians and their colleagues in the AMA Acknowledging the effect of changing demographics doctors nurses and farmers alike marched off to war and economics Grey contends that these factors do not fully explain the demise of the FSA experiment in health care Rather the political winds shifted at the same time that the medical profession acted to protect its authority over the practice of medicine *New Deal Medicine* shows that by the peculiarly American style of incrementalism many of the FSA medical care structures and goals have been at least partially realized in the United States and in Canada

The lessons learned by the FSA personnel were transferred into health programs in Canada in the labor unions and finally in Lyndon Johnson's Great Society
