Game Wizards Jon Peterson, 2021-10-12 Discover the colorful history of the table top RPG phenomenon Dungeons Dragons as a D D expert examines its surprising successes setbacks and controversies The battle over Dungeons Dragons was the ultimate geek war Wired When Dungeons Dragons was first released to a small hobby community it hardly seemed destined for mainstream success and yet this arcane tabletop role playing game became an unlikely pop culture phenomenon In Game Wizards Jon Peterson chronicles the rise of Dungeons Dragons from hobbyist pastime to mass market sensation from the initial collaboration to the later feud of its creators Gary Gygax and Dave Arneson Inside you ll learn about Gygax and Arneson s first meeting and their work toward the 1974 release The founding of TSR and its growth as a company Arneson s acrimonious departure and subsequent challenges to TSR Satanic Panic accusations that plagued D D and boosted its popularity TSR s reckless expansion and near fatal corporate infighting And much more With Game Wizards Peterson restores historical particulars long obscured by competing narratives spun by the one time partners That record amply demonstrates how the turbulent experience of creating something as momentous as Dungeons Dragons can make people remember things a bit differently from the way they actually happened *Microtimes* ,1999-06 **From Sea to Shining**

Sea Frank M. Panek, 2014-11-07 From Sea to Shining Sea is a story of exploration and discovery in the depths of the seas of Earth and on the Jovian moon of Europa In the height of the Cold War a submarine operating out of Portsmouth Shipyard was diverted to investigate a potential Soviet threat in the North Atlantic That submarine suffers a tragic accident and is lost with all hands One hundred years later the crew of an experimental research submersible the R S Balanus was sent by the United Nations and the US Navy to investigate something unusual in some of the deepest waters of the North Atlantic What Jack Wolfe and Wil Nelson thought was a demonstration dive of Sea Technologies and Explorations newest design was actually something quite different The final test dive of the R S Balanus would take the crew to explore the darkness and a dangerous unknown Dr Arnie Hanson of the UN Interplanetary Space Corps suspected that what drew the R S Balanus to investigate the abyss was in some way related to what the crew of the spaceship Endeavor had discovered on Europa miles under the ice in the Sea of Conamara Chaos If he was correct what these two groups of explorers found could change the world forever
