The Measurement of intelligence c. 2 Lewis Madison Terman,1916 **Medical Review of Reviews** ,1914 Index medicus in v 1 30 1895 1924 The Measurement of Intelligence Lewis Madison Terman,1916 The constant and growing use of the Binet Simon intelligence scale in public schools institutions for defectives reform schools juvenile courts and police courts is sufficient evidence of the intrinsic worth of the method It is generally recognized however that the serviceableness of the scale has hitherto been seriously limited both by the lack of a sufficiently detailed guide and by a number of recognized imperfections in the scale itself The Stanford revision and extension has been worked out for the purpose of correcting as many as possible of these imperfections and it is here presented with a rather minute description of the method as a whole and of the individual tests The aim has been to present the explanations and instructions so clearly and in such an untechnical form as to make the book of use not only to the psychologist but also to the rank and file of teachers physicians and social workers More particularly it is designed as a text for use in normal schools colleges and teachers reading circles PsycINFO Database Record c 2004 APA all rights reserved Best Short Stories Martha Foley,Edward Joseph O'Brien,1930 Includes the Yearbook of the American short story 1978 1980 **Journal of Psycho-asthenics** ,1910 Psychological Abstracts Walter Samuel Hunter,1929 *Federal Aid for Physical Education* United States.
