Service Design for Emerging Technologies Product Development Umar Zakir Abdul Hamid, Mari Suoheimo, 2023-07-20

The productization of emerging technologies related to the Fourth Industrial Revolution FIR is now getting more attention across different industries Compared to the previous industrial transformations that the world has seen which relied on mechanical innovations the ongoing FIR is seeing software and data driven products as the foundation Apart from that topics such as circular and sustainable economy as well as climate change are also disrupting the industrial ecosystem For a viable and successful productization of emerging technologies collaborations between interdisciplinary stakeholders are a necessity One of the elements that has been identified to facilitate this collaboration is service design This book aimed to provide comprehensive service design discussions for practitioners in different fields and sectors The aim is to bridge the knowledge gap between experts in academia business and product development among many others to provide a unified understanding of the importance of service design for the productization of emerging technologies The book consists of an overview of emerging technologies product development and service design as well as perspectives from different sectors of the industry The book is expected to benefit multi disciplinary researchers practitioners and general audiences with interests in Service Design for Emerging Technologies *Moody's International Manual*, 2000

Multiresidue Methods for the Analysis of Pesticide Residues in Food Horacio Heinzen, Leo M.L. Nollet, Amadeo R. Fernandez-Alba, 2017-10-10 In the last decades the public concern on the pesticide residues content in foods have been steadily rising The global development of food trade implies that aliments from everywhere in the world can reach the consumer s table Therefore the identification of agricultural practices that employ different pesticides combinations and application rates to protect produce must be characterized as they left residues that could be noxious to human health However the possible number of pesticides and its metabolites of toxicological relevance to be found in a specific commodity is almost 1500 and the time needed to analyze them one by one makes this analytical strategy a unrealistic task To overcome this problem the concept of Multi Residue Methods MRM for the analysis of pesticide traces have been developed The advent of new and highly sensitive instrumentation based in hyphenated chromatographic systems to coupled mass analyzers XC MS MS or MSn permitted simultaneously the identification and the determination of up to hundreds of pesticide residues in a single chromatographic run Multiresidue Methods for the Analysis of Pesticide Residues in Food presents the analytical procedures developed in the literature as well as those currently employed in the most advanced laboratories that perform routinely Pesticide Residue Analysis in foods In addition to these points the regulations guidelines and recommendations from the most important regulatory agencies of the world on the topic will be commented and contrasted *Microwave Cooking* Sally Murphy
