Take Control of Find My and AirTags, 4th Edition Glenn Fleishman, 2025-09-29 Track your stuff, find your friends, and safely share your location. Version 4.0 updated September 29, 2025. This book takes you inside Apple's Find My ecosystem, a robust privacy-protecting way to track your things, share your location, and see others with their permission, and aid in recovery of lost and stolen devices. Find My lets you and someone else arrange to meet and see your live updated ETA, figure out where your left iPad was, if it was on a flight, and know that your bicycle remains firmly in place where you locked it. Apple has matured Find My into a robust ecosystem that encompasses people, hardware, and compact trackers. Along the way, Find My has baked in increasing amounts of privacy protection to ensure that this level of real-time tracking isn't used for stalking or other crimes. *Take Control of Find My and AirTags* takes you through the many parts of the Find My world so you can configure and refine how you and your stuff is tracked and shared. You can use native Find My apps on an iPhone, iPad, Mac, or Apple Watch, or to a limited extent at iCloud.com, to track any of those devices or the people carrying them, as well as to see where AirTags and third-party Find My network items are, such as a tag in your car, on a backpack. You can even securely and temporarily give an airline tracking info for an AirTag in your location so you know when it arrives with you at a destination or help them find it when it's gone astray. This book looks at the three different kinds of tracking available from Apple: People, Learn, and Items. Learn how to share your location safely, follow others who let you, and send and receive notifications about arrivals and departures. Also, prevent being tracked when you don't want to be. Devices: See the whereabouts of your and Family Sharing group members' devices and audio hardware. Get to know the ins and outs of enabling Find My and taking remote actions from playing a sound to wiping your data from a device. Items: Find out how AirTags make use of the crowdsourced network of other people's Apple devices to help you find a lost or forgotten purse, backpack, or even car, and about the many third-party devices licensing the technology from Apple. Learn how to share your items with up to five other people. While the book
