American Education ,1983 **The Journal of the Assembly During the ... Session of the Legislature of the State of California** California. Legislature. Assembly, 1997 **Insights on Science Journalism** Felicity Mellor, 2024-03-14 Bringing together experts from a range of disciplines this collection critically examines science journalism paying special attention to the points of tension that science journalists navigate in their work today Faced with the twin crises of climate change and a global pandemic science journalism has never before been so prominent This book showcases perspectives that

transcend the particulars of the specific news events and outlets studied in order to provide an overview of the key areas of scholarly interest regarding the nature of science journalism. The volume is organised into three sections: the first provides historical case studies illustrating the demarcation of science journalism from science as science journalism emerged as a recognisable news beat in the twentieth century; the second examines the relationship between science journalists and their sources, particularly scientists and the mediation of this relationship through organisations; foreign journalism and political constraints; and the final section considers the style and voice of science journalism content. Case studies and original empirical research are compiled from across the globe including the UK, US, Germany, Vietnam and Russia and are synthesised to offer a readable and engaging insight into the beat. *Insights on Science Journalism* is recommended reading for advanced students and researchers of science journalism and communication and will also appeal to those working in the fields of science and technology studies and risk communication.

Withrow and MacEwen's Small Animal Clinical Oncology
Stephen J. Withrow, Rodney Page, David M. Vail, 2012-11-13

With a unique focus on the most effective interventional techniques, *Withrow MacEwen's Small Animal Clinical Oncology* 5th Edition tells the full story of cancer in dogs and cats: what it is, how to diagnose it and how to treat many of the most common cancers encountered in clinical practice. Nearly 500 color photographs, diagrams, x-rays and gross views depict the clinical manifestations of various cancers. This edition covers the latest advances in clinical oncology including chemotherapy, surgical oncology and diagnostic techniques. With contributions from 65 veterinary oncology experts, this authoritative reference is a must-have for current evidence-based therapeutic strategies on canine and feline oncology. I really love this book. If you are interested in veterinary oncology, have a flick through this book online or at a conference when you get the chance. I hope that you agree with me that this is the definitive oncology reference source for the early 21st century and that you feel compelled to buy it. Your patients will thank you for it.

Cutting edge information on the complications of cancer, pain management and the latest treatment modalities prepares you to diagnose and treat pets with cancer rather than refer cases to a specialist. A consistent format for chapters on body system tumors includes coverage of incidence and risk factors, pathology, natural behavior of tumors, history and clinical signs, diagnostic techniques and workup, treatment options and prognosis for specific malignancies. A systems approach to the diagnosis and management of cancer facilitates access to information about the many malignancies affecting small animal patients. Nearly 500 color images provide accurate depictions of specific diseases and procedures. Helpful drug formularies provide quick access to information on indications, toxicities and recommended dosages for chemotherapeutic and analgesic drugs used in cancer treatment. Expert contributors provide in-depth coverage of the most current information in their respective specialty in veterinary oncology. Chemotherapy protocols are included when case studies prove clinical efficacy. Discussion of compassion and supportive care for the management of pain, nutritional needs and grief includes methods for handling the
