People First Economics Making A Clean Start For Jobs Justice And Climate:

People First Economics David Ransom, Vanessa Baird, 2009 No one could have predicted the current economic revolution and it is a revolution Capitalism is in crisis exposed as a bankrupt system This study explores the implications of the crash for all encompassing economic thought as well as the social moral ecological and philosophical changes that are already beginning to emerge Ransom brings together exciting and radical thinkers including Walden Bello and Susan George to set the agenda for economic democratisation

Food and Faith Norman Wirzba, 2019 Provides a comprehensive theological framework in which good eating contributes to the healing of communities and the world

A Political Economy of the Senses Anita Chari, 2015-10-13 Anita Chari revives the concept of reification from Marx and the Frankfurt School to spotlight the resistance to neoliberal capitalism now forming at the level of political economy and at the more sensate experiential level of subjective transformation Reading art by Oliver Ressler Zanny Begg Claire Fontaine Jason Lazarus and Mika Rottenberg as well as the politics of Occupy Wall Street Chari identifies practices through which artists and activists have challenged neoliberalism's social and political logics exposing its inherent tensions and contradictions

Nine Lives Peter Braaksma, 2009 Presents the life stories of those who have been confronted with insurmountable obstacles opposition and oppression Whether it's human rights activist Harry Wu who spent 19 years in a Chinese labour camp or Nobel Laureate and president of Costa Rica Oscar Arias Sanchez each of the nine remarkable people featured here has faced the urgent and inescapable need to dig deep either to rescue themselves or to forge a fresh way forward for others

Just Transitions Edouard Morena, Dunja Krause, Dimitris Stevis, 2019-11-20 In the field of climate change no terrain goes uncontested The terminological tug of war between activists and corporations scientists and governments has seen radical notions of sustainability emptied of urgency and subordinated to the interests of capital Just Transition is the latest such battleground and the conceptual keystone of the post COP21 climate policy world But what does it really mean Just Transition emerged as a framework developed within the trade union movement to encompass a range of social interventions needed to secure workers and frontline communities jobs and livelihoods as economies shift to sustainable production Just Transitions draws on a range of perspectives from the global North and South to interrogate the overlaps synergies and tensions between various understandings of the Just Transition approach As the concept is entering the mainstream has it lost its radical edge and if so can it be recovered Written by academics and activists from around the globe this unique edited collection is the first book entirely devoted to Just Transition

Mother Jones Magazine, 1990-04 Mother Jones is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues

Bulletin of the Atomic Scientists, 1954-03 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world

Natural Capital Peter Kareiva, 2011-04-07 In

2005 The Millennium Ecosystem Assessment MA provided the first global assessment of the world's ecosystems and ecosystem services. It concluded that recent trends in ecosystem change threatened human wellbeing due to declining ecosystem services. This bleak prophecy has galvanized conservation organizations, ecologists, and economists to work toward rigorous valuations of ecosystem services at a spatial scale and with a resolution that can inform public policy. The editors have assembled the world's leading scientists in the fields of conservation policy analysis and resource economics to provide the most intensive and best technical analyses of ecosystem services to date. A key idea that guides the science is that the modelling and valuation approaches being developed should use data that are readily available around the world. In addition, the book documents a toolbox of ecosystem service mapping, modeling, and valuation models that both The Nature Conservancy and the World Wide Fund for Nature (WWF) are beginning to apply around the world as they transform conservation from a biodiversity only to a people and ecosystem services agenda. The book addresses land, freshwater, and marine systems at a variety of spatial scales and includes discussion of how to treat both climate change and cultural values when examining tradeoffs among ecosystem services. **The New York Times Index**, 2009 *New Statesman*, 2009-07

Lutzenberger and the landscape Paulo Backes, 2005 *Wall Street Journal Index*, 1981 [Economics for People and the Planet](#) James Boyce, 2019-01-16 *Economics for People and the Planet* a collection of essays by James K. Boyce on the environment, inequality, and the economy argues that there is not an inexorable trade-off between advancing human wellbeing and having a clean and safe environment. The goal of economic policy should be to grow the good things that improve our wellbeing and environmental quality and reduce the bad things that harm humans and nature. To reorient the economy for these ends, we will need to achieve a more egalitarian distribution of wealth and power. Global climate change, the most pressing environmental challenge of our time, adds urgency to this task and creates historic opportunities for moving towards a greener future. The audiobook version of *Economics for People and the Planet* features new chapters on the Green New Deal and the environmental costs of inequality. Foreword by Manuel Pastor [Clean Air and Good Jobs](#) Todd E. Vachon, 2023-04-21 Addresses the role that the U.S. labor movement has or could have in forging a just transition away from dependence on fossil fuels toward a Green New Deal to address the dual crises of climate change and inequality. *The Green Collar Economy* Van Jones, 2024-05-21 Steadily by redefining green, Jones is making sure that our planet and our people will not just survive but also thrive in a clean energy economy. Leonardo DiCaprio A New York Times bestseller *The Green Collar Economy* by award-winning human rights activist and environmental leader Van Jones delivers a much needed economic and environmental solution to today's two most critical problems. With a revised introduction and new afterword by the author, a man who counsels President Barack Obama on environmental policy, *The Green Collar Economy* and Jones have been highly praised by a multitude of leaders and legislators including Al Gore, Senator Tom Daschle, and Speaker of the House Nancy Pelosi. Van Jones was named one of The World's 100 Most Influential People of 2009 by Time magazine and

with The Green Collar Economy he offers a wise necessary and eminently achievable plan for saving the earth and rescuing working class Americans

The Green New Deal from Below Jeremy Brecher, 2024-11-12 A visionary program for national renewal the Green New Deal aims to protect the earth's climate while creating good jobs reducing injustice and eliminating poverty Its core principle is to use the necessity for climate protection as a basis for realizing full employment and social justice Jeremy Brecher goes beyond the national headlines and introduces readers to the community municipal county state tribal and industry efforts advancing the Green New Deal across the United States Brecher illustrates how such programs from below do the valuable work of building constituencies and providing proofs of concept for new ideas and initiatives Block by block these activities have come together to form a Green New Deal built on a strong foundation of small scale movements and grassroots energy A call for hope and a better tomorrow The Green New Deal from Below offers a blueprint for reconstructing society on new principles to avoid catastrophic climate change

Winning the Green New Deal Varshini Prakash, Guido Girgenti, 2020-08-25 An urgent and definitive collection of essays from leaders and experts championing the Green New Deal and a detailed playbook for how we can win it including contributions by leading activists and progressive writers like Varshini Prakash Rhiana Gunn Wright Bill McKibben Rev William Barber II and more In October 2018 scientists warned that we have less than 12 years left to transform our economy away from fossil fuels or face catastrophic climate

change At that moment there was no plan in the US to decarbonize our economy that fast Less than two years later every major Democratic presidential candidate has embraced the vision of the Green New Deal a rapid vast transformation of our economy to avert climate catastrophe while securing economic and racial justice for all What happened A new generation of leaders confronted the political establishment in Washington DC with a simple message the climate crisis is here and the Green New Deal is our last best hope for a livable future Now comes the hard part turning that vision into the law of the land In *Winning a Green New Deal* leading youth activists journalists and policymakers explain why we need a transformative agenda to avert climate catastrophe and how our movement can organize to win Featuring essays by Varshini Prakash cofounder of Sunrise Movement Rhiana Gunn Wright Green New Deal policy architect Joseph Stiglitz Nobel Prize winning economist Bill McKibben internationally renowned environmentalist Mary Kay Henry the President of the Service Employees International Union and others we ll learn why the climate crisis cannot be solved unless we also confront inequality and racism how movements can redefine what s politically possible and overcome the opposition of fossil fuel billionaires and how a Green New Deal will build a just and thriving economy for all of us For anyone looking to understand the movement for a Green New Deal and join the fight for a livable future there is no resource as clear and practical as *Winning the Green New Deal* *The Green New Deal and the Future of Work* Craig Calhoun, Benjamin Y. Fong, 2022-08-30 Catastrophic climate change overshadows the present and the future Wrenching economic transformations have devastated workers and hollowed out communities However those fighting for jobs and those fighting for the planet have often been at odds Does the world face two separate crises environmental and economic The promise of the Green New Deal is to tackle the threat of climate change through the empowerment of working people and the strengthening of democracy In this view the crisis of nature and the crisis of work must be addressed together or they will not be addressed at all This book brings together leading experts to explore the possibilities of the Green New Deal emphasizing the future of work Together they examine transformations that are already underway and put forth bold new proposals that can provide jobs while reducing carbon consumption building a world that is sustainable both economically and ecologically Contributors also debate urgent questions What is the value of a federal jobs program or even a jobs guarantee How do we alleviate the miseries and precarity of work In key economic sectors including energy transportation housing agriculture and care work what kind of work is needed today How does the New Deal provide guidance in addressing these questions and how can a Green New Deal revive democracy Above all this book shows the Green New Deal offers hope for a better tomorrow but only if it accounts for work s past transformations and shapes its future
