- After completing this practice set page, you should know how to record basic transactions in the journals provided below and understand the posting process in the manual accounting system. Note that you will record the remaining June transactions in the following sections of this practice set.

Remember, one purpose of using special journals is to make the posting process more efficient by posting the total of most columns in the special journals after all of the transactions for the period have been recorded. However, some parts of a journal entry are still required to be posted on a daily basis. View the company's accounting [policies and procedures](#) for details of what is to be posted daily or monthly.
