Performing Prose The Study And Practice Of Style In Composition:

Performing Prose Chris Holcomb, M. Jimmie Killingsworth, 2010-05-06 In *Performing Prose* authors Chris Holcomb and M. Jimmie Killingsworth breathe new life into traditional concepts of style. Drawing on numerous examples from a wide range of authors and genres, Holcomb and Killingsworth demonstrate the use of style as a vehicle for performance, a way for writers to project themselves onto the page while managing their engagement with the reader. By addressing style and rhetoric not as an editorial afterthought but as a means of social interaction, they equip students with the vocabulary and tools to analyze the styles of others in fresh ways as well as create their own. Whereas most writing texts focus exclusively on analysis or techniques to improve writing, Holcomb and Killingsworth blend these two schools of thought to provide a singular process of thinking about writing. They discuss not only the benefits of conventional methods but also the use of deviation from tradition, the strategies authors use to vary their style, and the use of such vehicles as images, tropes, and schemes. The goal of the authors is to provide writers with stylistic footing, an understanding of the ways writers use style to orchestrate their relationships with readers, subject matter, and rhetorical situations. Packed with useful tips and insights, this comprehensive volume investigates every aspect of style and its use, presenting an indispensable resource for both students and scholars. *Performing Prose* moves beyond customary studies to provide a refreshing and informative approach to the concepts and strategies of writing.

Style and the Future of Composition Studies Paul Butler, Brian Ray, Star Medzerian Vanguri, 2020-11-02 *Style and the Future of Composition Studies* explores style's potential for informing how students are taught to write well and its power as a tool for analyzing the language and discourse practices of writers and speakers in a range of contexts. Many college writing teachers operate under the belief that style still refers primarily to the kinds of issues discussed in Strunk and White's popular but outdated book *The Elements of Style*. This work not only challenges this view but also offers theories and pedagogies from diverse perspectives that help teachers and students develop strategic habits and mindsets to negotiate languages, genres, and discourse conventions. The chapters explore the ways in which style directly affects and is affected by multiple sources of shifting disciplinary inquiry, contributing new insights by drawing on research in cultural studies, sociolinguistics, discourse studies, translanguaging, and writing across the curriculum, as well as new approaches to classical rhetorical theory. The reemergence of stylistic inquiry can be used dynamically to produce new insights not only about emerging disciplinary interests but also about the study of style as a kind of language in and of itself. *Style and the Future of Composition Studies* demonstrates that style deserves to be a central focus of writing teaching. More than just the next style collection, the book advocates for style's larger prominence in composition discussions generally. It will be of interest to a broad range of students and scholars of writing studies as well as a wider set of readers in academe.

The Centrality of Style Mike Duncan, Star Medzerian Vanguri, 2013-04-07 In The Centrality of Style editors Mike Duncan and Star Medzerian Vanguri argue that style is a central concern of composition studies even as they demonstrate that some of the most compelling work in the area has emerged from the margins of the field

Writing Changes: Alphabetic Text and Multimodal Composition Pegeen Reichert Powell, 2020-04-01 Writing Changes moves beyond restrictive thinking about composition to examine writing as a material and social practice rich with contradictions It analyzes the assumed dichotomy between writing and multimodal composition which incorporates sounds images and gestures as well as the truism that all texts are multimodal Organized in four sections the essays explore alphabetic text and multimodal composition in writing studies specific pedagogies that place writing in productive conversation with multimodal forms current representations of writing and multimodality in textbooks of instructors attitudes toward social media and of writing programs ideas about writing studies as a discipline in the light of new communication practices Bookending the essays are an introduction that frames the collection and establishes key terms and concepts and an epilogue that both sums up and complicates the ideas in the essays
