Perceptions In Litigation And Mediation Perceptions In Litigation And Mediation:

Perceptions in Litigation and Mediation Tamara Relis, 2009-01-12 Offering interdisciplinary insights from sociological psychological and gender studies this book addresses this question how do professional lay and gendered actors understand and experience case processing in litigation and mediation Drawing on data from 131 interviews questionnaires and observations of plaintiffs defendants lawyers and mediators involved in 64 fatality and medical injury cases the book challenges dominant understandings of how formal legal processes and dispute resolution work in practice as well as the notion that disputants and their representatives broadly understand and want the same things during case processing In juxtaposing actors discourse on all sides of ongoing cases on issues such as expectations needs comprehensions of what plaintiffs seek from the legal system objectives for resolving conflict at mediation and perceptions of what occurs during attempts at case resolution the findings reveal inherent problems with the core workings of the legal system

Perceptions in Litigation and Mediation Tamara Relis, 2013 Grounded in interpretive theory and offering interdisciplinary insights from sociological psychological and gender studies this book addresses the question How do professional lay and gendered actors understand and experience case processing in litigation and mediation Drawing on data from 131 interviews questionnaires and observations of plaintiffs defendants lawyers and mediators involved in 64 fatality and medical injury cases the book challenges dominant understandings of how formal legal processes and dispute resolution work in practice It additionally challenges the notion that disputants and their representatives broadly understand and want the same things during case processing In fact the chapter s findings indicate repeatedly that notwithstanding legal benefits utilizing attorneys to assist disputants in resolving disputes is laden with difficulties as epistemologically each actor group essentially occupies different though parallel worlds In juxtaposing actors discourse on all sides of ongoing cases on issues such as expectations needs comprehensions of what plaintiffs seek from the legal system objectives for mediation and perceptions of what occurs during attempts at case resolution the findings reveal inherent problems with the core workings of the legal system By providing in depth views on the micro elements of case processing the book uncovers important issues about formal and informal justice the inextricability of disputants legal and extra legal needs and current paradigms relating to professional lay and gendered identities This book is unique in examining and understanding the workings of the legal system through juxtaposing lawyers plaintiffs defendants and mediators perceptions of litigation and mediation in ongoing litigated cases This has not been done before as access difficulties are immeasurable The book adds to the paucity of in depth empirical data from plaintiffs and defendants themselves on their motivations perceptions and extra legal agendas during litigation and mediation

Mediation for Lawyers Samantha Hardy, Olivia Rundle, 2010 The focus of this book is on practical application of theory The book is founded in current mediation theory relating to the range of models used in Australia and includes detailed contextual information including the legislative frameworks for mediation in different jurisdictions

Mediation for Lawyers provides practical advice and tools checklists for legal practitioners who represent clients in mediation *World Of Negotiation, The: Theories, Perceptions And Practice* Amira Galin,2015-10-16 The book will take its readers on a short tour of the world of negotiation and provide them with a systematic understanding of a wide array of negotiation topics The book includes the most essential points of importance and interest related to negotiation such as theories and conceptions basic negotiation processes and situations including negotiating a hostage crisis the impact of culture negotiation values and the uses of third party intervention in negotiation Each chapter concludes with a Practical Application section giving readers an opportunity to implement the insights and make better decisions in future negotiation situations *Perception of scientific knowledge in social work* Anna Žilová,Emília Janigová,2014-11-05 **Reimagining**

the Court of Protection Jaime Lindsey,2022-09-15 Combines original empirical data with theoretical and normative analysis of access to justice in the Court of Protection Alternative Dispute Resolution Mechanisms for Business-to-Business Digital Copyright and Content-Related Disputes World Intellectual Property Organization,2021-08-31 This timely publication analyses the results of a survey carried out by WIPO with the financial support of the Ministry of Culture Sports and Tourism of the Republic of Korea MCST on the current use of alternative dispute resolution ADR mechanisms to handle business to business disputes related to digital copyright and digital content Drawing on more than 1 000 responses from a wide range of stakeholders in 129 countries the report is a unique source of information on which to base the development of tailored ADR mechanisms **EU Cross-Border Commercial Mediation** Anna Howard,2021-01-13 Despite the growing national and international regulatory framework to support cross border mediation the use of such mediation appears to remain stubbornly low This book focuses in particular on the European Union s EU s continued efforts to encourage the use of cross border mediation and examines why such efforts have had a limited impact It does so by drawing on rare and at times surprising detailed insights from in house counsel of multinational companies regarding their use of EU cross border commercial mediation By viewing mediation through the lens of disputants new and important findings regarding why disputants do and do not use cross border mediation have emerged While these findings are of primary relevance to EU policy and practice they have implications far beyond the EU context at a time of increasing international interest in cross border mediation The analysis of the insights provided by the disputants reveals for example the prominent role played by negotiation as a cross border dispute resolution process that negotiation is a key comparator for disputants when considering whether to use mediation how the EU s continued focus on understanding and presenting mediation as an alternative to litigation has resulted in measures which are insufficient to address fully the barriers to the use of mediation intriguing barriers to the use of mediation which arise from the association which disputants draw between mediation and negotiation how the relationship which disputants draw between mediation and negotiation paradoxically raises both opportunities for and obstacles to the increased use of mediation and what disputants need in order to increase

their use of cross border mediation The qualitative nature by way of interviews of the research conducted for this book has enabled the identification of nuanced and novel findings regarding mediation s position and potential in cross border dispute resolution These findings together with a detailed examination of the EU Directive on Certain Aspects of Mediation in Civil and Commercial Matters and the EU s continued initiatives to foster the use of mediation form the foundation upon which this book s recommendations are built Changing the frame to view the use of mediation through the disputants perspective as this book does provides the opportunity for the EU to promote cross border mediation in a way which resonates more deeply with disputants and responds more fully to their concerns and needs This thought provoking book will be of interest not only to European and national bodies seeking to promote the use of mediation but clearly also to dispute resolution academics in house counsel and of course mediators and dispute resolution practitioners in general **Topical Bibliography**,1983 **Paths to Justice Scotland** Hazel Genn,Alan Paterson,2001-10 Reporting from a survey they conducted legal scholars Genn U College London and Paterson Strathclyde U analyze on the behavior of the public in Scotland in dealing with non trivial justiciable civil problems and disputes as potential pursuers or potential defenders They include the widest range of events experienced by individuals as private people for which legal remedies are available under the civil justice system Distributed in the US by ISBS Annotation copyrighted by Book News Inc Portland OR **Paths to Justice** Hazel Genn,1999-11-01 This book presents the results of the largest survey of public attitudes towards the civil justice system ever conducted by either an independent party or government agency This survey explored the behaviour of the public in dealing with potential legal disputes and problems as well as potential plaintiffs or potential defendants It identified the strategies adopted by those involved in potentially justiciable events to resolve or conclude the matter use of courts and ADR and the factors that propel litigants towards the legal system Of vital importance in policy formation it also identified structural factors such as costs and procedures or lack of knowledge which prevent access to the legal system where it is desired The survey further assessed the effect of this lack of access to the formal legal system of individuals **The Cambridge Handbook of Psychology and Legal Decision-Making** Monica K. International Arbitration Thomas Schultz, Federico Ortino, 2020-09-11 This Handbook brings together many of the key scholars and leading practitioners in international arbitration to present and examine cutting edge knowledge in the field. Innovative in its breadth of coverage, chapter topics range from the practicalities of how arbitration works to big picture discussions of the actors involved and the values that underpin it. The book includes critical analysis of some of international arbitrations most controversial aspects whilst providing a nuanced account overall that allows readers to draw their own informed conclusions. The book is divided into six parts after an introduction discussing the formation of knowledge in the field. Part I provides an overview of the key legal notions needed to understand how international arbitration technically works such as the relation between arbitration and law, the power of arbitral tribunals to make decisions, the appointment of arbitrators and the role of public policy. Part II focuses on key actors in international arbitration such as arbitrators, parties choosing arbitrators and civil society. Part III examines the central values at stake in the field including efficiency, legal certainty and constitutional ideals. Part IV discusses intellectual paradigms structuring the thinking in and about international arbitration such as the idea of autonomous transnational legal orders and conflicts of law. Part V presents the empirical evidence we currently have about the operations and effects of both commercial and investment arbitration. Finally, Part VI provides different disciplinary perspectives on international arbitration including historical, sociological, literary, economic and psychological accounts.

The Emotional Dynamics of Law and Legal Discourse Heather Conway, John Stannard, 2016-12-15 In his seminal work *Emotional Intelligence*, Daniel Goleman suggests that the common view of human intelligence is far too narrow and that emotions play a much greater role in thought, decision making and individual success than is commonly acknowledged. The importance of emotion to human experience cannot be denied yet the relationship between law and emotion is one that has largely been ignored until recent years. However, the last two decades have seen a rapidly expanding interest among scholars of all disciplines into the way in which law and the emotions interact, including the law's response to emotion and the extent to which emotions pervade the practice of the law. In *The Emotional Dynamics of Law and Legal Discourse*, a group of leading scholars from both sides of the Atlantic explore these issues across key areas of private law, public law, criminal justice and dispute resolution, illustrating how emotion infuses all areas of legal thought. The collection argues for a more positive view of the role of emotion in the context of legal discourse and demonstrates ways in which the law could, in the words of Goleman, become more emotionally intelligent.
