Persepolis Illustrated:

A History of Zoroastrianism Mary Boyce, 1982 Color and Meaning in the Art of Achaemenid Persia Alexander Nagel, 2023-09-14 This book introduces aspects of polychromies at Persepolis in Iran and their context in a modern historiography of Achaemenid Persian Art *Catalogue of the Very Fine Collection of Works of Art & Vertu, Formed by the Late Mr. Charles Redfern, of Warwick* H.T. Cooke and Son, 1868 *A Companion to the Achaemenid Persian Empire, 2 Volume Set* Bruno Jacobs, Robert Rollinger, 2021-08-31 A COMPANION TO THE ACHAEMENID PERSIAN EMPIRE A comprehensive review of the political cultural social economic and religious history of the Achaemenid Empire Often called the first world empire the Achaemenid Empire is rooted in older Near Eastern traditions A Companion to the Achaemenid Persian Empire offers a perspective in which the history of the empire is embedded in the preceding and subsequent epochs In this way the traditions that shaped the Achaemenid Empire become as visible as the powerful impact it had on further historical development But the work does not only break new ground in this respect but also in the fact that in addition to written testimonies of all kinds it also considers material tradition as an equal factor in historical reconstruction This comprehensive two volume set features contributions by internationally recognized experts that offer balanced coverage of the whole of the empire from Anatolia and Egypt across western Asia to northern India and Central Asia Comprehensive in scope the Companion provides readers with a panoramic view of the diversity richness and complexity of the Achaemenid Empire dealing with all the many aspects of history event history administration economy society communication art science and religion illustrating the multifaceted nature of the first true empire A unique historical account presented in its multiregional dimensions this important resource deals with many aspects of history administration economy society communication art science and religion it deals with topics that have only recently attracted interest such as court life leisure activities gender roles and more examines a variety of available sources to consider those predecessors who influenced Achaemenid structure ideology and self expression contains the study of *Nachleben* and the history of perception up to the present day offers a spectrum of opinions in disputed fields of research such as the interpretation of the imagery of Achaemenid art or questions of religion includes extensive bibliographies in each chapter for use as starting points for further research devotes special interest to the east of the empire which is often neglected in comparison to the western territories Part of the acclaimed Blackwell Companions to the Ancient World series A Companion to the Achaemenid Persian Empire is an indispensable work for students instructors and scholars of Persian and ancient world history particularly the First Persian Empire **The Concept of Monument in Achaemenid Empire** Mehr Azar Soheil, 2018-12-07 The aim of this book is to explore the significance of the concept of monument in the context of the Achaemenid Empire 550 330 BC with particular reference to the Royal Ensemble of Persepolis founded by Darius I and built together with his son Xerxes While Persepolis was built as an intentional monument it had already become an historic monument during the Achaemenid period

It maintained its symbolic significance in the following centuries even after its destruction by Alexander of Macedonia in 330 BC. The purpose of building Persepolis was to establish a symbol and a common reference for the peoples of the Empire with the Achaemenid Dynasty transmitting significant messages and values such as peace, stability, grandeur and praise for the dynastic figure of the king as the protector of values and fighting falsehood. While previous research on Achaemenid heritage has mainly been on archaeological and art historical aspects of Persepolis, the present work focuses on the architecture and design of Persepolis. It is supported by studies in the fields of archaeology, history and art history as well as by direct survey of the site. The morphological analysis of Persepolis, including the study of the proportions of the elevations and the verification of a planning grid for the layout of the entire ensemble, demonstrate the univocal will by Darius to plan Persepolis following a precise initial scheme. The study shows how the inscriptions, bas-reliefs and the innovative architectural language together express the symbolism, values and political messages of the Achaemenid Dynasty, exhibiting influence from different lands in a new architectural language and in the plan of the entire site.
