Peerless Images Vice-President Eleanor G Sims,Eleanor Sims,Boris Il'ich Marshak,Ernst J. Grube,Boris Marshak, I.,2002-01-01 This book is the first survey of the figural arts of the Iranian world from prehistoric times to the early twentieth century ever to consider themes rather than styles Analyzing primarily painting in manuscripts and albums on walls and on lacquered painted pen boxes and caskets but also the related arts of sculpture ceramics and metalwork the author finds that the underlying themes depicted on them through the ages are remarkably consistent Eleanor Sims demonstrates that all these arts display similar concerns kingship and legitimacy the righteous exercise of princely power and the defense of national territory and the performance of rituals and the religious duties called for by the paramount cult of the day She describes a variety of superb works of art inside and outside these categories noting not only how they illustrate archetypal themes but also what it is about them that is unique She also discusses the ways that Iranian art both influenced and was influenced by invaders and neighboring lands Boris I Marshak discusses pre Islamic and also Central Asian art in particular the earliest Iranian wall paintings and their pictorial parallels in rock carvings and metalwork and the richly painted temples and houses of Panjikent Ernst J Grube considers religious imagery and provides an informative bibliography

The Shaping of Persian Art Yuka Kadoi,Iván Szántó,2014-07-18 While the impact of the Persian style is undeniably reflected in most aspects of the art and architecture of Islamic Central Asia this Perso Central Asian connection was chiefly formed and articulated by the Euro American movement of collecting and interpreting the art and material culture of the Persian Islamic world in modern times This had an enormous impact on the formation of scholarship and connoisseurship in Persian art for instance with an attempt to define the characteristics of how the Islamic art of Iran and Central Asia should be viewed and displayed at museums and how these subjects should be researched in academia This important historical fact which has attracted scholarly interest only in recent years should be treated as a serious subject of research accepting that the abstract image of Persian art was not a pure creation of Persian civilization but that it can be the manifestation of particular historical times and charismatic individuals Attention should therefore be given to various factors that resulted in the shaping of Persian imagery across the globe not

only in terms of national ideologies but also within the context of several protagonists such as scholars collectors and dealers as well as of the objects themselves This volume brings together Islamic Iranian and Central Asian art experts from diverse disciplinary and professional backgrounds and intends to offer a novel insight into what is collectively known as Persian art
