26: Medium-Format Photography: Getting Started Shawn M. Tomlinson, 2018-12-14 Simply put medium format photography is quite a bit more complex than shooting with 35mm film SLRs or 35mm style DSLRs It takes a bit more skill and experience to handle medium format cameras Not only do you need to learn to think differently about how you shoot but you also have a whole new type of equipment to learn Medium format cameras produce bigger images which allows for more detail and greater enlargement And because they in general were designed for professional photographers the lenses tend to be of better quality than most 35mm lenses which also adds to the detail in the images In this book we ll take a look at medium format SLRs and TLRs and we ll even touch upon some other types We ll also consider a few lenses although these largely are a matter of choice And there are far fewer choices for medium format cameras than for other types Time to do some weight training and heft those medium format cameras and lenses into position Let s go **Nikon D800 and D800e**

Steve Markelo, 2015-06-11 The Nikon D800 D800e is one of the Nikon cameras to win the Gold Award by Digital Photography Review The camera has several functions that come as standard in the default function such as autofocus in some scenes and scenarios you will need to manually adjust the setting to achieve the quality photos as you shoot The camera has white balance ISO sensitivity and exposure compensation to reduce the effects of a different light source on how the camera captures the photo There are different modes to help you change the shutter speed and aperture values to achieve the settings required for the different scenes **David Busch's Compact Field Guide for the Nikon D800/D800E** David D.
