

Nikon D90 is a semiprofessional camera, equip with several features that makes it very versatile. In my experience, it's a great camera, with so much to offer, and the image quality is really great.

What to look for in the D90

Video Recording in HD-resolution

One of the first things that are discussed about the D90, is the video recording. This was the first SLR camera capable of recording HD-resolution video.

It has three ways of recording movies in JPEG formats:

- 320 x 216 pixels
- 640 x 424 pixels, and
- 1,280 x 720 pixels

Its very versatile in the sense that you can use several lenses to record your movies, and also has a great ISO performance if you are thinking of making night videos. You can also use the Picture Control selection to make your videos with the tone and color that you prefer.
