**The List Whisperer** Mohammed Ismail Ansari, 2024-04-02 While lists undeniably serve a purpose for most people I may harbor an almost irrational compulsion to jot down even the most trivial details of my future present or sometimes even past life Perhaps it is a testament to the inherent usefulness of lists even for those who do not readily recognize them as

indispensable tools particularly for those who prefer to keep their minds uncluttered My journey with lists began in the form of handwritten notes during my middle school years evolving in several forms They passed through several digital platforms until they reached the refined state they occupy today At the time of this writing they reside as plain text documents and are accessible on virtually every digital device I interact with daily In my last writing I focused primarily on daily tasks and how one can organize their life to work on those tasks without losing sanity As lists planning and productivity are very closely interconnected I wrote this book as a follow up to my first one with a more generic look at how I think one can utilize lists in their day to day life
