The Collaborative Economy in Action: European Perspectives Andrzej Klimczuk, Vida Česnuityte, Gabriela Avram, 2021-10-04 The book titled *The Collaborative Economy in Action: European Perspectives* is one of the important outcomes of the COST Action CA16121 *From Sharing to Caring: Examining the Socio-Technical Aspects of the Collaborative Economy* (short name *Sharing and Caring*, sharingandcaring.eu) that was active between March 2017 and September 2021. The Action was funded by the European Cooperation in Science and Technology (COST) www.cost.eu/actions/CA16121. The main objective of the COST Action *Sharing and Caring* is the development of a European network of researchers and practitioners interested in investigating the collaborative economy models, platforms and their socio-technological implications. The network involves scholars, practitioners, communities and policymakers. The COST Action *Sharing and Caring* helped to connect research initiatives across Europe and enabled scientists to develop their ideas by collaborating with peers. This collaboration opportunity represented a boost for the participants' research careers and innovation potential. The main aim of this book is to provide a comprehensive overview of the collaborative economy (CE) in European countries with a variety of its aspects for a deeper understanding of the phenomenon as a whole. For this reason, in July 2017, an open call for country reports was distributed among the members of the COST Action *Sharing and Caring*. Representatives of the member countries were invited to produce short country reports covering definitions of the CE types and models of the CE, key stakeholders involved, as well as legislation and technological tools relevant for the CE. Submitted reports varied in length and regarding the level of detail included in accordance with how much information was available in each respective country at the time of writing. Editors of the book have compiled these early reports into a summary report which was intended as a first step in mapping the state of the CE in Europe. The *Member Countries Report on the Collaborative Economy*, edited by Gaia Mosconi, Agnieszka Lukaszewicz and Gabriela Avram (2018), that was published on the *Sharing and Caring* website represented its first synergetic outcome and provided an overview of the CE phenomenon as interpreted and manifested in each of the countries part of the network. Additionally, Sergio Nassare Aznar, Kosjenka Duman and Giulia Priora compiled a *Preliminary Legal Analysis of Country Reports on Cases of Collaborative Economy* (2018). In 2018, after undertaking an analysis of the previous reports' strengths and weaknesses, the book editors issued a call for an updated version of these country reports. Prof. Ann Light advised the editorial team proposing a new format for country reports and

Understanding Movement Parties Through their Communication Dan Mercea,Lorenzo Mosca,2023-03-21 In many countries movement parties have swayed large tracts of the electorate Contributions to this edited book reflect on the place of movement parties in democratic politics through analyses of their communication Reviewing evidence from several countries including cases from Europe Australia and India where movement parties have gained ground in politics this book illuminates the important role that communication has played in their rise as well as the issues surrounding it Movement parties have expressed greater sensitivity to neglected issues a commitment to renewing links with marginalized social groups through more direct chiefly online communication with them as well as an ambition to overhaul both the party organization and the political system In doing so they have signalled a desire to disrupt and reimagine politics Yet the critical examination of their efforts and of the communication environment in which they operate against questions regarding the quality of democracy throws into relief a mismatch between a participation oriented rhetoric and concrete democratic practices Accordingly contributions draw attention to disconnections between a professed

need for more immediate and greater participation in movement party organization and policymaking on the one hand their organizational practices and the communication of parties leaders and supporters on the other This book was originally published as a special issue of the journal Information Communication Society
