World Trade and Investment Law Reimagined Alvaro Santos, Chantal Thomas, David Trubek, 2019-06-28 World trade and investment law is in crisis. New and progressive ideas are needed. Rules that facilitated globalization and supported global economic growth are being challenged. A system of global governance that once seemed secure is now at risk as the United States ignores the rules while developing countries struggle to escape restrictions. Some want to tear global institutions and agreements down while others try desperately to maintain the status quo. Rejecting both options, a group of trade and investment law experts from 10 countries, South and North, have joined hands to propose ideas for a new world trade and investment law that would maintain global

growth while distributing costs and benefits more fairly. Paying special attention to those who have suffered from trade dislocation and to restrictions that have hampered innovative growth strategies in developing countries, they outline a progressive trade and investment law agenda in *World Trade and Investment Law Reimagined*. **A Business History of Retail** Bettina Liverant, 2024-09-05 Although transformations in retailing are of tremendous current interest, there is no single broad-ranging account of the evolution of retailing formats. *A Business History of Retail* fills this gap, providing a chronological presentation of changes in retail businesses and shopping experiences from pre-industrial times to the present. Retailing is explored as both an economic and a cultural phenomenon, tracing retail strategies and business operations as they are reconfigured by retailers adapting to changing conditions, new technologies, government policies, and evolving markets. Relationships between the makers, sellers, and buyers of goods are shaped and reshaped as retailers large and small respond to competition and pursue new opportunities. Areas of continuity are identified even as businesses grow and strategies evolve. After four centuries, there are more retailers selling more merchandise in more ways to more customers. The mass consumption of goods and services is central to American and Canadian history, and understanding consumer society requires understanding retailing. Combining original research with recent scholarship in business and social history, cultural theory, and readings in current retail business strategy, this study provides a valuable resource for students and scholars in a wide range of fields and will appeal to general readers with an interest in retail shopping and consumerism. *Routledge Handbook of Contemporary Taiwan* Gunter Schubert, 2024-12-31 This fully revised 2nd edition of the *Routledge Handbook of Contemporary Taiwan* provides a comprehensive overview of both contemporary Taiwan and the Taiwan studies field.
