4 Weeks to Maximum Immunity Editors Of Prevention Magazine, Kim Galeaz, 2008-04-15 Publication of Prevention's Maximum Immunity couldn't be more timely. As health experts are ever more loudly sounding the alarm about the dangers of a flu pandemic and the general rise in treatment-resistant disease strains, men and women increasingly find themselves juggling hectic stressful schedules that deplete their immune defenses. Now Prevention, the magazine widely recognized as the premier source for cutting-edge authoritative health information, examines the various lifestyle factors that influence immune function, including diet, nutrition, exercise, sleep, stress, and environment, to construct a scientifically sound 28-day program that measurably improves the body's ability to ward off illness both short and long term. Developed specifically for this book, the program features daily menus of immune-boosting foods, daily tips to create an immune-friendly lifestyle, the keys to maximum immunity, including moderate and consistent exercise, 2 servings of fruits and vegetables at every meal, adequate sleep, 15 minutes outdoors without sunscreen, and a few laughs whenever possible. Targeted self-care strategies ranging from nutritional supplements to behavioral changes enable anyone to tailor the program to fit individual needs. Preventive and treatment measures that help people fight back against specific conditions, from allergies, asthma, and food poisoning to Lyme disease, shingles, and pneumonia.
