Mastering Large Datasets with Python John Wolohan, 2020-01-15 Summary Modern data science solutions need to be clean easy to read and scalable In Mastering Large Datasets with Python author J T Wolohan teaches you how to take a small project and scale it up using a functionally influenced approach to Python coding You ll explore methods and built in Python tools that lend themselves to clarity and scalability like the high performing parallelism method as well as distributed technologies that allow for high data throughput The abundant hands on exercises in this practical tutorial will lock in these essential skills for any large scale data science project Purchase of the print book includes a free eBook in PDF Kindle and ePub formats from Manning Publications About the technology Programming techniques that work well on laptop sized data can slow to a crawl or fail altogether when applied to massive files or distributed datasets By mastering the powerful map and reduce paradigm along with the Python based tools that support it you can write data centric applications that scale efficiently without requiring codebase rewrites as your requirements change About the book Mastering Large Datasets with Python teaches you to write code that can handle datasets of any size You ll start with laptop sized datasets that teach you to parallelize data analysis by breaking large tasks into smaller ones that can run simultaneously You ll then scale those same programs to industrial sized datasets on a cluster of cloud servers With the map and reduce paradigm firmly in place you ll explore tools like Hadoop and PySpark to efficiently process massive distributed datasets speed up decision making with machine learning and simplify your data storage with AWS S3 What s inside An introduction to the map and reduce paradigm Parallelization with the multiprocessing module and pathos framework Hadoop and Spark for distributed computing Running AWS jobs to process large datasets About the reader For Python programmers who need to work faster with more data About the author J T Wolohan is a lead data scientist at Booz Allen Hamilton and a PhD researcher at Indiana University Bloomington Table of Contents PART 1 1 Introduction 2 Accelerating large dataset work Map and parallel computing 3 Function pipelines for mapping complex transformations 4 Processing large datasets with lazy workflows 5 Accumulation operations with reduce 6 Speeding up map and reduce with advanced parallelization PART 2 7 Processing truly big datasets with Hadoop and Spark 8 Best practices for large data with Apache Streaming and mrjob 9 PageRank with map and reduce in PySpark 10 Faster decision making with machine learning and PySpark PART 3 11 Large datasets in the cloud with Amazon Web Services and S3 12 MapReduce in the cloud with Amazon s Elastic MapReduce *Copyright's Excess* Glynn Lunney, 2018-04-12 For more than two hundred years copyright in the United States has rested on a simple premise more copyright will lead to more money for copyright owners and more money will lead to more original works of authorship In this important illuminating book Glynn Lunney tests that premise by tracking the rise and fall of the sound recording copyright from 1961 2015 along with the associated rise and fall in sales of recorded music Far from supporting copyright s fundamental premise the empirical evidence finds the exact opposite relationship more revenue led to fewer and lower

quality hit songs Lunney's breakthrough research shows that what copyright does is vastly increase the earnings of our most popular artists and songs which net result means fewer hit songs This book should be read by anyone interested in how copyright operates in the real world **Digital Innovation Strategy** Aija Leiponen, 2023-12-21 Based on applied economics and from the perspective of an innovator seeking to develop a new digital business this textbook is aimed at MBA and advanced undergraduate audiences interested in innovation strategy and competition in digital industries Step by step the book guides innovators through a dynamic market analysis and business model design leading to an assessment of the future evolution of the market and the broader innovation ecosystem and what the innovator can do to position the innovation for continued success Each chapter defines and provides references for key concepts that can be further explored through suggested readings and study questions Real world case studies further facilitate forming a comprehensive view on how to resolve strategic challenges of digital innovation The topics covered in this text are essential for a broad range of managers consultants entrepreneurs technologists and analysts to understand in depth **Lines and Lyrics** Matt

BaileyShea, 2021-11-30 An introduction to poetry geared toward the study of song Bruce Springsteen Benjamin Britten Kendrick Lamar Sylvia Plath Outkast and Anne Sexton collide in this inventive study of poetry and song Drawing on literary poetry rock rap musical theater and art songs from the Elizabethan period to the present Matt BaileyShea reveals how every issue in poetry has an important corresponding status in song but one that is always transformed Beginning with a discussion of essential features such as diction meter and rhyme the book progresses into the realms of lineation syntax form and address and culminates in an analysis of two complete songs Throughout BaileyShea places classical composers and poets in conversations with contemporary songwriters and musicians T S Eliot and Johnny Cash Aaron Copland and Pink Floyd so that readers can make close connections across time genres and fields but also recognize inherent differences To aid the reader the author has created a Spotify playlist of all the music discussed in this book and provides time cues throughout enabling readers to listen to the music as they read **Evaluation and Credentialing in Digital Music Communities** H. Cecilia

Suhr, 2014-11-07 In this MacArthur Report Suhr explores digital music communities use of evaluation games and digital badges for both casual music evaluators and musicians The first case study focuses on audience evaluation via playing Spotify's Hit or Not game where game players evaluate a song's hit potential Suhr explores the gamification of learning and evaluation when the act of music evaluation turns into a game what do the players learn and what may be the implications of this type of evaluation The second more in depth case study on Indaba Music examines the process of gaining badges through involvement in contests Suhr questions whether or not gaining badges holds significance for musicians Taken as a whole this report analyzes how digital badges are perceived by both music listeners and musicians To what extent can digital badges be an effective way to represent and credit musicians accomplishments and merits What are the emerging challenges benefits and shortcomings in the use of digital badges as an alternative evaluation mechanism How do the uses of digital

badges in the context of assessing creativity intersect or diverge with the practices related to education and other non creative fields Provided by publisher **Mixing with Impact** Wessel Oltheten,2018-03-22 In *Mixing with Impact* Learning to Make Musical Choices Wessel Oltheten discusses the creative and technical concepts behind making a mix Whether you re a dance producer in your home studio a live mixer in a club or an engineer in a big studio the mindset is largely the same The same goes for the questions you run into where do you start How do you deal with a context in which all the different parts affect each other How do you avoid getting lost in technique How do you direct your audience s attention Why doesn t your mix sound as good as someone else s How do you maintain your objectivity when you hear the same song a hundred times How do your speakers affect your perception What s the difference between one compressor and another Following a clear structure this book covers these and many other questions bringing you closer and closer to answering the most important question of all how do you tell a story with sound

Hudl For Dummies Rosemary Hattersley,2014-06-03 The essential beginner s guide to the UK s most popular new tablet Hudl For Dummies is the indispensable guide to Tesco s highly successful Android tablet With hands on instruction tailored to the entry level user this book provides expert guidance in clear concise language to help you get the most out of this great new device Seasoned technology author Rosie Hattersley walks you through each step from opening the box to setting up e mail accessing Blinkbox shopping online and more Even if you re a newcomer to tablet technology this book will have you up and running in a flash By utilizing groundbreaking technology it s no wonder analysts expect the Hudl to become the UK s leading tablet While the device itself is intuitive the Hudl s infinite possibilities can be a bit of a mystery to new users Hudl For Dummies is the definitive guide to the device helping you access the full capabilities of your new tablet Gain a complete understanding of how to get up and running with the Tesco Hudl Download and launch apps with your new tablet to make it a workhorse or an entertainment system Discover how to access the Internet e mail films music and books Shop online with your new device and find out how to buy Hudl accessories An entire chapter on troubleshooting allows you to bypass the repair shop for minor issues and gives you the confidence to adjust settings and preferences without the worry of messing something up Whether you re transitioning to the Hudl from another tablet or are new to tablets entirely Hudl For Dummies will take you from a new user to full fledged Hudl devotee

Streaming Music Sofia Johansson,Ann Werner,Patrik Åker,Greg Goldenzwaig,2017-08-24 *Streaming Music* examines how the Internet has become integrated in contemporary music use by focusing on streaming as a practice and a technology for music consumption The backdrop to this enquiry is the digitization of society and culture where the music industry has undergone profound disruptions and where music streaming has altered listening modes and meanings of music in everyday life The objective of *Streaming Music* is to shed light on what these transformations mean for listeners by looking at their adaptation in specific cultural contexts but also by considering how online music platforms and streaming services guide music listeners in specific ways Drawing on case studies from Moscow and Stockholm and providing analysis of Spotify

VK and YouTube as popular but distinct sites for music Streaming Music discusses through a qualitative cross cultural study questions around music and value music sharing modes of engaging with music and the way that contemporary music listening is increasingly part of mobile automated and computational processes Offering a nuanced perspective on these issues it adds to research about music and digital media shedding new light on music cultures as they appear today As such this volume will appeal to scholars of media sociology and music with interests in digital technologies Music and Science Tuomas Eerola,2024-11-25 Music and Science provides an introduction and practical guidance for a scientific and systematic approach to music research Students with a background in humanities may find the field hard to tackle and this accessible guide will show them how to consider using an appropriate range of methods introducing them to current standards of research practices including research ethics open access and using computational tools such as R for analysis These research methods are used to identify the underlying patterns behind the data to better understand how music is constructed and how we are influenced by music The book focusses on music perception and the experience of music as approached through empirical experiments and by analysing music using computational tools spanning audio and score materials The process of research collaboration and publishing in this area of study is also explained and emphasis is given to transparent and replicable research principles The book will be essential reading for students undertaking empirical projects particularly in the area of music psychology but also in digital humanities and media studies *ENTERPRISE SEMANTIC SEARCH REVOLUTIONIZES BUSINESS CONVERSATIONS* Jothi Periasamy,2024-11-27 Discover the transformative power of enterprise semantic search without relying on Large Language Models LLMs in Enterprise Semantic Search revolutionizes business conversation This comprehensive guide explores the innovative techniques behind implementing semantic search at scale across diverse data types text images audio and video empowering organizations to achieve more meaningful intent driven conversations Authored by leading academics and industry professionals this book covers vector databases embeddings multidimensional modeling algorithms and cloud technologies A practical framework is presented that can be used to build advanced semantic search systems Discover how to converge enterprise data and develop AI powered tools for secure dynamic and user friendly searches Key highlights include Understanding vectors embeddings and their roles in semantic search Implementing independent and unified search across varied data formats Leveraging cutting edge technologies like Sentence BERT CLIP Pinecone Cloud Technologies and more Real world applications showcasing enhanced product discoverability personalization and decision making Whether you re an AI enthusiast data scientist developer or enterprise leader this book offers hands on guidance source code and reference architectures to simplify implementation while accelerating results Step into the future of intelligent search systems and unlock the full potential of your data

Innovative Pricing Strategies to Increase Profits, Second Edition Daniel Marburger,2015-09-08 Perhaps the most confounding characteristic of the competitive marketplace is that everyone wants a piece of the action If a firm successfully

enters a new market creates a new product or designs new innovations for an existing product it's just a matter of time before competitors follow suit. And the influx of competition inevitably places downward pressure on both price and profitability. Whether you're an economics student or a manager with absolutely no background in economics, this book will help you make better decisions and learn more about the Five Forces Model first published in 1979 by Harvard economist Michael Porter, which identifies the characteristics that can help insulate a firm from competitive forces. This book brings microeconomic theory into the world of the business manager rather than the other way around. The author expounds on microeconomic theory enabling economists to take the knowledge back to the office and apply it. *Scrum For Dummies* Mark C. Layton, 2015-04-20 Practice an agile form of management to stop wasting time and money. Layton walks you through the core principles so you can keep your projects on time and on budget. Discover what makes scrum different, how it lowers costs, and speeds project completion, and how to put it to work. *Bayes Rules!* Alicia A. Johnson, Miles Q. Ott, Mine Dogucu, 2022-03-03 An engaging, sophisticated, and fun introduction to the field of Bayesian statistics. *Bayes Rules: An Introduction to Applied Bayesian Modeling* brings the power of modern Bayesian thinking, modeling, and computing to a broad audience. In particular, the book is an ideal resource for advanced undergraduate statistics students and practitioners with comparable experience; the book assumes that readers are familiar with the content covered in a typical undergraduate-level introductory statistics course. Readers will also ideally have some experience with undergraduate-level probability, calculus, and the R statistical software. Readers without this background will still be able to follow along so long as they are eager to pick up these tools on the fly, as all R code is provided. *Bayes Rules* empowers readers to weave Bayesian approaches into their everyday practice. Discussions and applications are data-driven. A natural progression from fundamental to multivariable hierarchical models emphasizes a practical and generalizable model-building process. The evaluation of these Bayesian models reflects the fact that a data analysis does not exist in a vacuum. Features: Utilizes data-driven examples and exercises. Emphasizes the iterative model-building and evaluation process. Surveys an interconnected range of multivariable regression and classification models. Presents fundamental Markov chain Monte Carlo simulation. Integrates R code, including RStan modeling tools, and the *bayesrules* package. Encourages readers to tap into their intuition and learn by doing. Provides a friendly and inclusive introduction to technical Bayesian concepts. Supports Bayesian applications with foundational Bayesian theory. **Digital Renaissance** Joel Waldfogel, 2020-12-08 How digital technology is upending the traditional creative industries and why that's a good thing. The digital revolution poses a mortal threat to the major creative industries: music, publishing, television, and the movies. Cheap, easy self-producing is eroding the position of the gatekeepers and guardians of culture. Does this revolution herald the collapse of culture, as some commentators claim? Far from it. In *Digital Renaissance*, Joel Waldfogel argues that digital technology is enabling a new golden age of popular culture: a digital renaissance. Analyzing decades of production and sales data, as well as bestseller and best-of lists, Waldfogel finds that the

new digital model is just as powerful at generating high quality successful work as the old industry model and in many cases more so *Musings on Markets: Articles from 2015-2019* Aswath Damodaran, In the ever evolving world of finance clarity and insight are precious commodities Enter Professor Aswath Damodaran the mind behind the influential blog Musings on Markets This unassuming corner of the internet launched in 2008 serves as a platform for his insightful commentary on current financial events valuation methodologies and emerging trends Damodaran s ability to break down complex financial concepts into digestible terms has made him a beloved figure among investors and students Professor Damodaran or Aswath as he s affectionately known to his readers isn t your typical Wall Street guru His writing is refreshingly devoid of jargon laced with wit and grounded in a passion for demystifying complex financial concepts Think of Musings on Markets as your friendly neighborhood professor patiently explaining the intricate workings of financial markets through clear explanations insightful analyses and a healthy dose of real world examples Aswath Damodaran is a distinguished professor of finance at the Stern School of Business New York University Renowned for his groundbreaking work in corporate finance and valuation Damodaran has been instrumental in shaping the field s methodologies and applications Born in India Damodaran pursued his academic journey in the United States earning his Ph D in finance from the University of Michigan His early career was marked by a deep dive into the intricacies of capital markets and corporate valuation a fascination that has remained a constant throughout his illustrious career Damodaran s academic prowess is evident in his extensive publications He is the author of several highly acclaimed textbooks including Investment Valuation Corporate Finance Theory and Practice and Applied Corporate Finance A User s Guide These books are considered essential reading for students practitioners and academics alike providing invaluable insights into the theory and practice of finance His contributions to the field of finance have not gone unnoticed Damodaran has been recognized with numerous awards and honors including the Graham and Dodd Award from the Financial Analysts Journal and the Distinguished Scholar Award from the Academy of Financial Management Aswath Damodaran s legacy extends far beyond his academic achievements His dedication to teaching research and public outreach has inspired countless individuals to pursue careers in finance and has significantly advanced the field of corporate valuation **Jacaranda Maths Quest 12 Essential Mathematics Units 3 & 4 for Queensland, 2e learnON and Print**

Mark Barnes,2025-11-24 **Headship Decapitated** Conrad Riker,101-01-01 The West Is Dying And She s Ruling It Have you noticed how men are punished for providing while women lead revolutions from therapy couches and university seminars Do you feel like you ve been disarmed demonized and discarded expected to serve a system that reviles you Why are fathers treated like tenants in their own homes taxed like criminals yet still expected to bleed for a family that no longer respects authority This book is not another rant It s a forensic dismantling of the ideological coup that replaced truth with trauma merit with identity and fatherhood with failure Exposes how equality became a weapon to depose men while keeping their duties Traces the feminist satanic inversion how female nature rewrites morality to serve emotional dominance Reveals why

Marxism and feminism are the same disease in different hosts Uncover the maternal archetype gone feral collectivism as infantilization equity as tyranny Shows how women en masse weaponize subjectivity silence and shame to control men Documents the economic suicide of the West female consumerism male obsolescence zero births Explains why women don't lead revolutions they are the revolution silent coordinated and total Proves that the left isn't ideological it's psychological arrested development dressed as justice If you want to understand how the world was stolen from under you and how to reclaim it buy this book today [The Subscription Boom](#) Adam Levinter,2019-10-08 In this clear and informed guide to the business model that's set to dominate twenty-first century commerce Adam Levinter makes a compelling case that the phenomenal success of companies like Amazon Netflix Spotify and Salesforce wouldn't be possible without the foundation they all have in common subscription A surge of subscription boxes in 2012 earned buzz for offering everything from razors to meal kits to underwear since then the model has proven to be adaptable profitable and resilient even as many traditional retailers struggle to stay relevant in the digital economy Levinter takes a close look at the leaders of the subscription economy to pinpoint the essential elements of the model and prove that while the basic concept may be as old as magazines the ubiquity of the internet is enabling a new way for businesses to scale and succeed The Subscription Boom shows that the appeal to both customers and businesses makes subscription a smart play for virtually any business **Money Made Easy** Paul Merriman,2024-01-25 Financial well-being is the peace of mind and security we get from being in control of our money PAUL MERRIMAN In Money Made Easy Paul Merriman founder of financial advisory service askpaul presents practical advice that will transform your relationship with money With easy-to-follow insights and tips on how to change your mindset when it comes to your finances prioritising your money goals budgeting reducing debt and saving how to protect grow and replace your income investing your money and key steps to take before you do how to identify the best pension plan for you navigating the Irish mortgage sector government schemes and tax Money Made Easy unravels the complexities of personal finance enabling you to enjoy your life now while also taking care of your financial future Discover true financial well-being today [Agile Processes in Software Engineering and Extreme Programming - Workshops](#) Maria Paasivaara,Philippe Kruchten,2020-09-23 This open access book constitutes the 6 research workshops the Agile Education and Training Track the Doctoral Symposium as well as a panel presented at XP 2020 the 21st International Conference on Agile Software Development which was held during June 8-12 2020 The conference was planned to take place at the IT University of Copenhagen Denmark Due to the COVID-19 pandemic the conference was held online In 2020 the following six workshops took place Third International Workshop on Software Intensive Business Eighth International Workshop on Large Scale Agile Development Second European Symposium on Serverless Computing and Applications Second International Workshop on Agile Transformation First International Workshop on Agility with Microservices Programming Third International Workshop on Autonomous Agile Teams XP is the premier agile software development conference combining research and practice It is

a unique forum where agile researchers practitioners thought leaders coaches and trainers get together to present and discuss their most recent innovations research results experiences concerns challenges and trends XP conferences provide an informal environment to learn and trigger discussions and welcome both people new to agile and seasoned agile practitioners The 31 papers presented in this volume were carefully reviewed and selected from overall 79 submissions In addition to the 26 workshop papers this volume also includes 2 papers from the Agile Education and Training Track and 3 papers from the Doctoral Symposium Furthermore the book contains a summary of a panel discussion with the topic Covid 19 s Influence on the Future of Agile
