Return of the Hustle Eric Sheinkop, 2016-03-11 Has a commercial ever brought you to tears Has a movie ever inspired you so much you change your way of life Has the series finale of a television show ever broken your heart Has a video game ever altered your perception of reality If you're like most consumers you answered yes to at least one of those questions Whether you remember it or not the music of that ad film show or game probably played a big role in influencing your emotional response during that experience In fact music is included in media specifically for the purpose of connecting with audiences on a deeper level that visuals alone cannot access A strong music strategy is fundamental to the success of television film brands and video games Because of higher expectations for audiovisual content it will take more than clever animation or a celebrity cameo to connect with consumers in an authentic organic way By providing audiences with a genuine music experience whether with an exclusive song through an artist partnership or by featuring new music from an emerging band you can build a bond that extends far beyond product experience Music touches us emotionally in a way that words seldom do We feel it we remember it In *Return of The Hustle* a leading music and marketing industry insider discusses the diverse audio touchpoints for four key industries and shows how marketers storytellers and advertisers can use music to effectively guide audiences along the customer journey from passive consumers to brand advocates *Return of The Hustle* provides readers with a blueprint for music strategy that professionals at any level in any industry can use to attract consumers immerse them into the content and extend relationships between them and the brand long after the commercial ends or the credits roll With detailed case studies exhaustive interviews and thorough research *Return of the Hustle* gives readers the playbook to use the marketing power of music to drive business results *De Gruyter Handbook of Media Economics* Ulrike Rohn, M. Bjørn Rimscha, Tim Raats, 2024-05-20 The handbook presents key contributions from scholars worldwide providing a comprehensive exploration of current trends in media industries from diverse perspectives Within the framework of understanding contemporary and future trajectories in media markets and industries the volume delves into their influence on media organization and delivery along with broader societal and market implications Encompassing research at the crossroads of economics management political economy and production studies the handbook emphasizes the necessity for a robust interdisciplinary dialogue Beyond scrutinizing present and forthcoming industry developments the handbook addresses pivotal issues pertaining to media economics research methods and pedagogy It serves as a valuable resource for scholars students and media professionals providing insights into media economics as an academic field and delving into the multifaceted dynamics that shape the media landscape Doing this it contributes to the ongoing discourse on the evolving nature of media markets and their profound impact on society *Rethinking Communication Geographies* Jansson, André, 2022-05-17 This timely research handbook offers a systematic and comprehensive examination of the election laws of democratic nations Through a study of a range of different regimes of election law it illuminates the disparate choices

These Memories Do Not Belong to Us Yiming Ma, 2025-08-12 Ma's brilliantly inventive *These Memories Do Not Belong to Us* weaves worlds around a central question What happens when technology enables a totalitarian government to break into the last private frontiers of the internal mind Chilling poignant and uncomfortably timely Ma's braided memory dispatches explore a future in which the shifting concepts of safety loyalty and truth lead nowhere except condemnation Tessa Hulls author of Pulitzer Prize winner *Feeding Ghosts* For fans of *Cloud Atlas* and *The Power* a hauntingly beautiful and prescient debut set in a future where a renamed China is the sole global superpower When I was a boy my mother used to tell me stories of a world before memories could be shared between strangers In a far off future ruled by the Qin Empire every citizen is fitted with a Mindbank an intracranial device capable of recording and transmitting memories between minds This technology gives birth to Memory Capitalism where anyone with means can relive the life experiences of others It also unleashes opportunities for manipulation memories can be edited marketed and even corrupted for personal gain After the sudden passing of his mother an unnamed narrator inherits a collection of banned memories from her Mindbank so dangerous that even possessing them places his freedom in jeopardy Traversing genres empires and millennia they are tales of sumo wrestlers and social activists and armless swimmers and watchmakers struggling amid the backdrop of Qin's ascent toward global dominance Determined to release his mother's memories to the world before they are destroyed forever the narrator will risk everything even if the cost is his own life Powerful and provocative *These Memories Do Not Belong to Us* masterfully explores how governments and media manipulate history to control the collective imagination It forces us to see beyond the sheen of convenient truths and to unearth real stories of sacrifice and love that refuse to be eradicated
