 This report was prepared to assist managers in the risk managed application of expert systems ES technology Two problems
 that have frustrated managers and technicians who might otherwise be interested in exploring ES solutions are the seeming
 lack of a software engineering discipline for creating and maintaining expert systems and the fact that the software
 development risks associated with expert systems have not been clearly addressed This guide focuses on ES development as
 a software engineering endeavor and emphasizes that as such it should be subject to much the same discipline as
 conventional automated information system software The guide is meant to be used in conjunction with accepted software
 development methods and standards such as Department of Defense DOD Standards 2167A and 7935 1 DOD Directive 7920
 1 DOD Instruction 7920 2 and the OSD Major Automated System Review Council MAISRC Guidelines for Program Managers
