The Gould Variations Juha Markus Mantere, 2012. This book focuses on three aspects in Glenn Gould's 1932-1982 musical thought and practice: Gould's embrace of music technology, his notions of the ontology of music and musical interpretation, and the place of his thought in Canadian intellectual history. Focusing not only on Gould's writings on music technology but also on those of Marshall McLuhan (1911-1980) and Jean Le Moyne (1913-1996), this book provides a fresh perspective on Gould's thinking, which was embedded in and keenly alert to the intellectual world outside music. The book also touches on Gould's public reception, his national iconicity in Canadian literature and Hollywood movies. Gould's stardom is discussed as a phenomenon more commonly associated with contemporary popular culture.
