*De Gruyter Handbook of Media Technology and Innovation* Richard A. Gershon, 2025-01-27 The De Gruyter Handbook of Media Technology and Innovation brings together scholars from around the world to provide key insights on emerging technology trends and issues related to the fields of media management information technology product design planning and digital lifestyle This handbook is about the power of good ideas It's about those business enterprises government planners educators and entrepreneurs that have harnessed the power of good

ideas to become real difference makers in the world we live in Keeping pace with fast paced technology change requires ongoing assessment and reassessment of the media management and technology fields to address important questions and emerging issues A major premise of this book is that given the complex and ever changing state of media technology we have a responsibility and obligation to engage in a broader interdisciplinary dialogue whose purpose is to understand the current and future state of media technology and innovation as well as to appreciate the social impact that such technologies have on business education and the general public Forecasting the future as any weatherperson or stock broker can tell you is a risky business But in this book we use the phrase the creative next step as a way to talk about the future and what we can expect in terms of the opportunities and challenges going forward

*The economic impact of FinTech companies on the traditional banking sector and possible future scenarios* Malik Dakdaki, 2017-11-07 Bachelor Thesis from the year 2017 in the subject Business economics Accounting and Taxes grade 1 3 University of applied sciences Frankfurt a M FOM language English abstract The beginning of the digital revolution at the turn of the millennium has ushered in a structural change in many sectors Due to the increased use of modern information and communication technologies ICT several sectors have already experienced existential economic implications This is especially evident in the music media and publishing industries For example music is not only purchased on CDs from local retail stores but is also increasingly consumed via the Internet through streaming services such as Spotify Videos store rentals compete with the comfortable video on demand services available in customers own homes The Internet as a medium for information and consumption for products and services has established itself as a faster more comfortable and more efficient channel in comparison to traditional sales channels Stationary retail stores were also not spared from digital disruption The market research institute Gesellschaft für Konsumforschung GfK predicts a doubling of the online share of retail sales from currently to 20% by the year 2025 At the same time new and innovative market participants known as financial technology or FinTech companies are edging into the financial sector and trying to gain market share from established banks through customer friendly products and services Nevertheless the banks do not seem to recognize the seriousness of the situation and therefore are reluctant to adapt to the new situation However experience has shown that ignorance of an industry s digitization has already led to the fall of large and established companies As a well known example in the technology industry Kodak is often referred to in this context The company s reaction to the digital disruption took place too late whereas other companies had already recognized the trend towards digital photography at an earlier stage and prepared corresponding products As a result Kodak plummeted from the top of the photography technology industry Evidence of ongoing digital disruption of the financial services sector has already been provided in the form of a new type of bank the direct bank which was first introduced in the early 1990s FinTech companies seek to take advantage of this success and gain customers and market share by offering innovative solutions for financial products and services
