teacher education and guides you through the application process to ensure you choose the training route that's right for you and achieve a successful result. Key chapters cover developing your subject knowledge in English and mathematics, understanding the curriculum, the nature of learning, assessment, behaviour issues and inclusive teaching. Useful features such as jargon busters, progress checklists and case studies make the material accessible and help you navigate the new landscape of teacher education. In addition, the text encourages you to reflect critically on your school experiences of learning and teaching and uses examples of theory, research and practice to help you develop an informed stance on important themes.

Algorithms and Architectures for Parallel Processing Meikang Qiu, 2020-09-29. This three-volume set LNCS 12452, 12453 and 12454 constitutes the proceedings of the 20th International Conference on Algorithms and Architectures for Parallel Processing, ICA3PP 2020, in New York City, NY, USA, in October 2020. The total of 142 full papers and 5 short papers included in this proceedings volume were carefully reviewed and selected from 495 submissions. ICA3PP is covering the many dimensions of parallel algorithms and architectures encompassing fundamental theoretical approaches, practical experimental projects and commercial components and systems. As applications of computing systems have permeated in every aspect of daily life, the power of computing systems has become increasingly critical. This conference provides a forum for academics and practitioners from countries around the world to exchange ideas for improving the efficiency, performance, reliability, security and interoperability of computing systems and applications. ICA3PP 2020 focuses on two broad areas of parallel and distributed computing, i.e. architectures, algorithms and networks and systems and applications.
