Gawdat is an engineer. What most of us see as insurmountable problems, he sees as system overloads to tackle and solve. Unstressable breaks stress into inputs and effects, classifying human stressors as stress to the mind, stress to emotions, stress to the body, and stress to the soul. Once classified, Gawdat and co-author Alice Law show readers how stress can be predicted and once predicted, prevented. Unstressable illuminates for readers how most of us deal with the unpleasant anxiety-producing and even miserable or tragic events in our lives: stress is always a by-product leading directly to inability to cope, health problems, and cratered confidence. Gawdat and Law guide readers to both heart-centred and science-based solutions. They'll train readers to develop habits and attitudes of listening and learning that limit stress. Learn the language of de-stressing mind, emotions, body, and soul. Respond, not react. Release self-criticism, insomnia, and lethargy. Increase energy, focus.
