Focus On: 100 Most Popular Television Series by Universal Television Wikipedia contributors, **Transnational Streaming Television** Joseph Straubhaar, Swapnil Rai, Melissa Santillana, Silvia Dalben, 2025-09-29 Examining the impact of streaming on the global production and flow of television and film this book provides an innovative theoretical framework to conceptualize how asymmetric dynamics of power play out in the era of global streaming This book analyses Netflix and Amazon Prime Video two tech based digital native streamers and compares

them to Disney and HBO Max Warner Bros Discovery two legacy Hollywood studios with cable TV and broadcasting operations now pursuing global streaming The book compares their different models of operation and specifically explores how these four streamers particularly Netflix are co producing and commissioning television programs and films in an increasing number of countries It also examines how this trend is creating new opportunities for independent producers and soft power for the producing nations This book further considers the direct algorithmic targeting of individuals by their genre preferences across boundaries of culture language and nation boundaries that previously protected national and regional television markets creating a new flow of data colonialism At a more local level the book also examines some of the national and regional streaming platforms emerging in some of the key players in the Global South Brazil India and Mexico This is essential reading for students researchers and academics interested in media studies global media and global television studies

Netflix and Streaming Video Amanda D. Lotz, 2022-07-22 Netflix and Streaming Video is the first book to provide a comprehensive foundation for understanding the business of subscriber funded streaming video and its implications for the role of these services in culture Drawing on Lotz s two decades of research it highlights the similarities and differences among streaming video services Netflix Amazon and video distribution technologies broadcast satellite internet Making a number of provocative and thought provoking arguments the book first reveals how the reliance on subscriber payment and video on demand produces different norms and strategies compared to previous video businesses It then investigates Netflix and how its particular blend of characteristics distinguishes it from other subscriber funded video on demand services The author expertly shows that by understanding the underlying economic and technological dynamics of these services and their differences it is possible to better assess the actions taken by the companies and what the future of video may encompass The book is a must read for students and scholars of Media and Communications Studies as well as those wishing to learn more about Netflix and streaming video services

Television's Streaming Wars Arienne Ferchaud,Jennifer M. Proffitt,2023-11-03 This volume addresses contemporary debates and trends regarding the production and distribution content and audience engagement with the television streaming industry The book interrogates the economics and structure

of the industry questions the types and diversity of content perpetuated on streaming services and addresses how audiences engage with content from US and global perspectives and within various research paradigms Chapters address the television streaming wars including the debates and trends in terms of its production and competition diversity and growth of programming and audience consumption focusing on multiple platforms content and users This timely and creative volume will interest students and scholars working in television studies media industry studies popular culture studies audience studies media psychology critical cultural studies and media economics

Pivoting and Producing for Online TV Alexa Scarlata, 2025-05-02 The introduction and diffusion of international subscription video on demand SVOD services in the 2010s represented the most significant disruption of established national broadcast and pay TV ecologies in their long history Using an in depth Australian case study this book narrates this profound period of proliferation It also considers how incumbent commercial networks pay TV providers and public service broadcasters developed into online TV providers albeit in assorted ways In so doing it conceives of the early impact of online TV 2015 2020 more broadly and acknowledges the role of both new and old TV players The industry wide shift towards online TV over this period also impacted existing television drama production cultures SVOD services provided a fruitful avenue for the distribution of existing archives and slowly began to support the production of new Australian content with an increasingly global focus However the formal arrival of online TV certainly did not usher in the boom in original local television drama many anticipated Pivoting and Producing for Online TV Australia s Transition advances the macro analysis of television production strategies This book will be useful to students and researchers interested in media film and cultural studies

Television Goes Back to the Future Anthony N. Smith, Laura Minor, 2025-11-08 This book examines the extent to which the practices of television s past are shaping its online future Challenging industry and scholarly claims of digital disruption it demonstrates how streaming giants like Netflix Disney and Amazon Prime Video alongside public service broadcasters like the BBC and Channel 4 maintain deep continuities with television history adapting established industry practices online rather than abandoning them The authors look at how media institutions have applied conventional broadcast television practices around live transmissions linear scheduling commercial interruption and episode release cadences to streaming platforms how narrative and genre norms continue to underpin American television drama and British TV sitcoms in online contexts and how globalised streaming services cultivate country specific programming and retain close ties to traditional practices of national broadcasting systems in South Korea

The Business of Television Ken Basin, 2024-09-19 In this expanded and updated second edition esteemed television executive and Harvard lecturer Ken Basin offers a comprehensive and readable overview of the business financial and legal structure of the U S television industry as well as its deal making norms The Business of Television explores the basic structure and recent history of the television and streaming business rights and talent negotiations intellectual property backend deals licensing international production and much more This expanded and updated second

The Politics of Serial Television Fiction Sebastian Naumann,2025-03-18 Fictional TV politics played a pivotal role in the popular imaginaries of the 2010s across cultures Examining this curious phenomenon Sebastian Naumann provides a wide ranging analysis of the rapidly evolving landscape of contemporary polit series Proposing a novel structural model of serial television he offers an innovative methodological framework for comparative textual analysis that integrates sociocultural economic sociotechnical narratological and aesthetic perspectives This study furthermore explores how the changing affordances of nonlinear television impact serial storytelling and identifies key narrative trends and recurring themes in contemporary TV polit fiction

Personalization and Digital Social Markets Tahir M. Nisar,2025-01-09 Tahir Nisar presents a cogent compelling account of recent developments and disruptions within the digital economy and particularly within the industrial and service sectors Through an original overarching framework rooted in the concept of personalization and its antecedents Nisar identifies radically new forms of relationships both economic and social among firms and customers These new relationships are driving major changes in commercial and industrial firms policies and practices and in turn in the entire market economy E commerce trading user generated content virtual communities co creation influencer movements FinTech and sharing economies have strengthened the hands of consumers and have encouraged developments in cognitive technologies such as AI automation which in turn create new ways of working and disruptions to traditional capital labour relations Ultimately what emerges from this study is a picture of how digital technologies unleash forces of change that are creating new forms of social and economic sharing arrangements and new forms of social organization For its empirical depth and and theoretical rigor this book is essential reading for researchers and students interested in emerging alternative forms of economics business and management and particularly those interested in the digital economy and the state and future of capitalist markets

Streaming Video Amanda D. Lotz,Ramon Lobato,2023-05-02 An international team of experts explores how streaming services are disrupting traditional storytelling The rise of streaming has dramatically transformed how audiences consume media Over the last decade subscription video on demand SVOD services including Netflix Prime Video and Disney have begun commissioning and financing their own original movies and TV shows changing the way and the rate at which

content is produced across the globe from Mexico City to Mumbai Streaming Video maps this international production boom and what it means for producers audiences and storytellers Through eighteen richly textured case studies ranging from original Korean dramas on Netflix to BluTV s experimental Turkish series the book investigates how streaming services both disrupt and maintain storytelling traditions in specific national contexts To what extent and how are streamers expanding norms of television and film storytelling in different parts of the world Are streamers enabling the creation of content that would not otherwise exist What are the implications for different viewers in different countries with different tastes Together the chapters critically assess the impacts of streaming on twenty first century audiovisual storytelling and rethink established understandings of transnational screen flows

Fusion Strategy Vijay Govindarajan,Venkat Venkatraman,2024-03-12 Two world renowned experts on innovation and digital strategy explore how real time data and AI will radically transform physical products and the companies that make them Tech giants like Facebook Amazon and Google can collect real time data from billions of users For companies that design and manufacture physical products that type of fluid data rich information used to be a pipe dream Now with the rise of cheap and powerful sensors supercomputing and artificial intelligence things are changing fast In Fusion Strategy world renowned innovation guru Vijay Govindarajan and digital strategy expert Venkat Venkatraman offer a first of its kind playbook that will help industrial companies combine what they do best create physical products with what digitals do best use algorithms and AI to parse expansive interconnected datasets to make strategic connections that would otherwise be impossible The laws of competitive advantage are changing rewarding those who have the most robust data driven insights rather than the most valuable assets To compete in the new digital age companies need to use real time data to turbocharge their products strategies and customer relationships Those that don t risk falling on the wrong side of the next great digital divide Fusion Strategy is the way forward
