Pandemic Playlist Kevin Farrell,2024-09-05 Pandemic Playlist An Exploration of COVID inspired Popular Music takes readers back to 2020 when the COVID 19 pandemic wreaked havoc on the music industry Focusing on those artists who responded directly to the pandemic with their music Kevin Farrell explores a selection of songs written and recorded about COVID 19 These songs range from the hilariously tongue in cheek to the painfully earnest to the self righteously angry coming from musicians obscure world famous and up and coming Farrell argues that these songs both originals and repurposed covers are best classified by rhetorical approach rather than musical style identifying four basic categories of COVID inspired popular music the Coronavirus Anthem Bono s Let Your Love Be Known Alicia Keys Good Job Pandemic Pop Cardi B and iMarkkeyz s Coronavirus Curtis Roach and Tyga s Bored in the House the COVID Cover Gal Gadot s Imagine Juvenile s Vax That Thang Up and Pandemic Protest Ian Brown s Little Seed Big Tree Kid Rock s We The People Through a study of these songs and many more this book seeks to understand what the pandemic and the music it inspired can teach us about the previously unimaginable

How Music Empowers Steven Gamble,2021-03-14 How Music Empowers argues that empowerment is the key to unlocking the long standing mystery of how music moves us Drawing upon cutting edge research in embodied cognitive science psychology and cultural studies the book provides a new way of understanding how music affects listeners The argument develops from our latest conceptions of what it is to be human investigating experiences of listening to popular music in everyday life Through listening individuals have the potential to redefine themselves gain resilience connect with other people and make a difference in society Applying a groundbreaking theoretical framework to postmillennial rap and metal the book uncovers why vast numbers of listeners engage with music typically regarded as social problems or dismissed as extreme In the first ever comparative analytical treatment of rap and metal music twenty songs are analysed as case studies that reveal the empowering potential of listening The book details how individuals interact with rap and metal communities in a self perpetuating process which keeps these thriving music cultures and the listeners themselves alive and well Can music really change the world How Music Empowers answers yes because it changes us How Music Empowers will interest scholars and researchers of popular music ethnomusicology music psychology

music therapy and music education Music Similarity and Retrieval Peter Knees, Markus Schedl, 2016-05-28 This book provides a summary of the manifold audio and web based approaches to music information retrieval MIR research In contrast to other books dealing solely with music signal processing it addresses additional cultural and listener centric aspects and thus provides a more holistic view Consequently the text includes methods operating on features extracted directly from the audio signal as well as methods operating on features extracted from contextual information either the cultural context of music as represented on the web or the user and usage context of music Following the prevalent document centered paradigm of information retrieval the book addresses models of music similarity that extract computational features to describe an entity that represents music on any level e g song album or artist and methods to calculate the similarity between them While this perspective and the representations discussed cannot describe all musical dimensions they enable us to effectively find music of similar qualities by providing abstract summarizations of musical artifacts from different modalities The text at hand provides a comprehensive and accessible introduction to the topics of music search retrieval and recommendation from an academic perspective It will not only allow those new to the field to quickly access MIR from an information retrieval point of view but also raise awareness for the developments of the music domain within the greater IR community In this regard Part I deals with content based MIR in particular the extraction of features from the music signal and similarity calculation for content based retrieval Part II subsequently addresses MIR methods that make use of the digitally accessible cultural context of music Part III addresses methods of collaborative filtering and user aware and multi modal retrieval while Part IV explores current and future applications of music retrieval and recommendation **Mike**
