banks corporations and the healthcare system are willing to do what the deep state can't. Now that they're out of power in the White House and Congress the Democrats are mobilizing in the shadows working to make sure an election like 2024 never happens again. In 'They're Coming for You' Jason Chaffetz reveals how Democrats have been planting the seeds of political control using unelected institutions that collect and weaponize private information. Most of us know we have traded our privacy for convenience. Most of us have chosen not to worry that the government will track our Facebook posts and arrest us. But what if an online retailer does? What if companies use that data to refuse to hire us, do business with us or ship products to us? 'They're Coming for You' lays bare the frightening truth about how these institutions are collecting, buying, selling and sharing our data without regard for our privacy, civil liberties or national security. Republican political victories will ring hollow until this bureaucratic partnership with the nonprofit and private sectors is exposed and the power of the administrative state checked.
