Influencer Advertising versus Traditional Advertising, 2021-07-21 Master's Thesis from the year 2020 in the subject Communications Public Relations Advertising Marketing Social Media grade 1 0 Klagenfurt University language English abstract In the field of marketing influencer promotions evolved to an established strategy to spread awareness about brands and to target potential customers Especially the beauty industry utilizes the strategic communication approaches through the embeddedness of products into the creative content of influencers in order to persuade consumers The purpose of this research paper is to examine the influencing power of those digital opinion leaders while comparing this potential with traditional print advertisements in magazines In this process particular focus has been laid on the perceived credibility of both marketing techniques applied on the luxury cosmetic market in Austria Through a quantitative survey with paper and pencil questionnaires data on attitudes and perceptions of 120 respondents could be gathered in Klagenfurt Results of the study reveal that influencer advertisements are not automatically more influencing than traditional print advertisements However a positive pre attitude towards beloved influencers affect people to develop a more positive attitude towards brands and products that were advertised by social media opinion leaders These findings suggest that luxury cosmetic brands should create a marketing mix that implements a

complementary storytelling strategy between influencer promotions and print advertisements. Thereby companies can target influencer followers as well as consumers of older generations to achieve a communication concept which attracts potential customers in a diversified way.

Dollars and Sense Dan Ariely, Jeff Kreisler, 2017-11-07 New York Times bestselling author Dan Ariely teams up with financial comedian and writer Jeff Kreisler to delve into the truly irrational world of personal finance blending humor and behavioral economics to help people understand the psychology behind their financial decisions and show them how they can make better ones. He entertains critical questions such as these: Why is paying for things painful? Why are we comfortable overpaying for something in the present just because we've overpaid for it in the past? Why is it easy to pay 4 for a soda on vacation when we wouldn't spend more than 1 on that same soda at our local grocery store? We think of money as numbers, values, and amounts, but when it comes down to it, when we actually use our money, we engage our hearts more than our heads. Emotions play a powerful role in shaping our financial behavior, often making us our own worst enemies as we try to save, access value, and spend responsibly. In *Dollars and Sense*, bestselling author and behavioral economist Dan Ariely teams up with financial comedian and writer Jeff Kreisler to challenge many of our most basic assumptions about the precarious relationship between our brains and our money. In doing so, they undermine many of personal finance's most sacred beliefs and explain how we can override some of our own instincts to make better financial choices. Exploring a wide range of everyday topics from the lure of pain-free spending with credit cards to the pitfalls of household budgeting to the seduction of holiday sales, Ariely and Kreisler demonstrate how our misplaced confidence in our spending habits frequently leads us astray, costing us more than we realize, whether it's the real value of the time we spend driving forty-five minutes to save 10¢ or our inability to properly assess what the things we buy are actually worth. The result not only reveals the rationale behind our most head-scratching financial choices but also offers clear guidance for navigating the treacherous financial landscape of the brain. Fascinating, engaging, funny, and essential, *Dollars and Sense* provides the practical tools we need to understand and improve our financial choices, save, and spend smarter, and ultimately live better.
