Box Office Reddit Pro Top:

Post-Horror David Church, 2021-02-01 Horror's longstanding reputation as a popular but culturally denigrated genre has been challenged by a new wave of films mixing arthouse minimalism with established genre conventions. Various dubbed elevated horror and post horror films such as *The Babadook*, *It Follows*, *The Witch*, *It Comes at Night*, *Get Out*, *The Invitation*, *Hereditary*, *Midsommar*, *A Ghost Story* and *Mother* represent an emerging nexus of taste, politics and style that has often earned outsized acclaim from critics and populist rejection by wider audiences. *Post-Horror* is the first full length study of one of the most important and divisive movements in twenty first century horror cinema. Media/Society David Croteau, William Hoynes, 2018-08-21 The best text to help students understand the often complicated ever changing relationship between media and society. Seong Jae Min Pace University Providing a framework for understanding the relationship between media and society this updated Sixth Edition of *Media Society* helps students develop the skills they need to critically evaluate both conventional wisdom and their own assumptions about the social role of the media. The book retains its acclaimed sociological framework but now includes additional discussions of new research and up to date coverage of today's rapidly changing media landscape. Now featuring streamlined content and a more engaging narrative this edition offers expanded discussions of the new media world including digitization, the internet, the spread of mobile media devices, the role of user generated content, the potential social impact of new media on society and new media's effect on traditional media outlets. Give your students the SAGE edge. Use ISBN 9781544361246. *Theoretical Perspectives on Fan Scholarship in the Franchise Era* Sophie Charlotte Goor, 2025-10-01 This book is a practical and theoretical guide for anyone interested in researching popular media, popular culture audiences and fans. Unlike most books *Theoretical Perspectives* does not talk about media texts or fan communities. Instead it critically explores the workings of fan scholarship research on popular media and fan culture done by scholars who are often fans themselves, showing and challenging how we have constructed certain ideas about what fans and fandom are and how to study them as a fan. Analysing scholarship on two transmedia franchises, *The Marvel Cinematic Universe* and the BBC's *Sherlock* with the help of extensive international participant discussion *Theoretical Perspectives* explores and unravels established popular theoretical frameworks and value systems on taste and legitimacy, subversion, filtering and safe spaces, neoliberal capitalist realism and fanish dispositions to offer new approaches for anyone who wants to create a better understanding of fans, fandom and themselves.
