Describe how

Sign language is a form of communication of persons who are predominantly by the deaf community. Instead of using a spoken word, it uses hand gestures, facial expressions, and body movements to convey meaning. Sign language is a full-fledged natural language with its own grammar, syntax, and words in writing. National Sign Language is used in many schools, colleges, and universities.

The history of sign language dates back centuries, though most were often secret and uncodified. Because of this, it is hard to pin down when it was first used. Some early sign systems were used by deaf people to communicate with hearing people. In the 18th century, the first deaf school was founded in Paris, and it was there that the first sign language was developed.

The American Sign Language (ASL) is a natural language that is used by the deaf community in the United States. It is a full-fledged language with its own grammar and syntax. ASL is not a form of English, but it is a language in its own right. It is a language that is used by deaf people to communicate with each other.

Learning to use ASL is a challenge, but it is a rewarding experience. It is a language that is used by deaf people to communicate with each other. It is a language that is used by deaf people to communicate with each other.
