Human Interaction, Emerging Technologies and Future Applications IV Tareq Ahram, Redha Taiar, Fabienne Groff, 2021-04-15 This book reports on research and developments in human technology interaction. A special emphasis is given to human computer interaction and its implementation for a wide range of purposes such as healthcare, manufacturing, transportation, and education among others. The human aspects are analyzed in detail. Innovative studies related to human centered design, wearable technologies, augmented virtual and mixed reality simulation, as well as developments and applications of machine learning and AI for different purposes, represent the core of the book. Emerging issues in business security and infrastructure are also critically examined, thus offering a timely, scientifically grounded but also professionally oriented snapshot of the current state of the field. The book is based on contributions presented at the 4th International Conference on Human Interaction and Emerging Technologies Future Applications (IHET AI 2021) held on April 28-30, 2021 in Strasbourg, France. It offers a timely survey and a practice-oriented reference guide to researchers and professionals dealing with design and/or management of the new generation of service systems.

The Gamification of Citizens' Participation in Policymaking Kai Masser, Linda Mory, 2018-04-17 This book examines the use of game elements to encourage citizens to participate in political decision making and the planning of large scale public sector projects. It argues that success is based on a personal concern with the project and a belief in the influence on political decision making but also on fun. Without fun

only a very small group of the usual suspects will participate especially in classic policymaking approaches like citizens panels which require time and physical attendance The book also examines the relationship between representative democracy and citizen participation from the perspective of direct democratic instruments in Germany Readers from different countries with different political systems can decide for themselves if and how the results from Germany are transferable to their respective conditions Grounded in theoretical literature and statistical data the book also makes use of narratives applying a storytelling approach to the case studies
