The Teacher's Body Diane P. Freedman, Martha Stoddard Holmes, 2012-02-01 These highly personal essays from a range of academic settings explore the palpable moments of discomfort disempowerment and or enlightenment that emerge when we discard the fiction that the teacher has no body Visible and or invisible the body can transform both the teacher's experience and classroom dynamics When students think the teacher's body is clearly marked by ethnicity race disability size gender sexuality illness age pregnancy class linguistic and geographic origins or some combination of these both the mode and the content of education can change Other less visible aspects of a teacher's body such as depression or a history of sexual assault can have an equally powerful impact on how we teach and learn The collection anatomizes these moments of embodied pedagogy as unexpected teaching opportunities and examines their apparent impact on teacher student educational dynamics of power authority desire friendship open mindedness and resistance

Physics II For Dummies Steven Holzner, 2010-07-13 A plain English guide to advanced physics Does just thinking about the laws of motion make your head spin Does studying electricity short your circuits *Physics II For Dummies* walks you through the essentials and gives you easy to understand and digestible guidance on this often intimidating course Thanks to this book you don't have to be Einstein to understand physics As you learn about mechanical waves and sound forces and fields electric potential and electric energy and much more you'll appreciate the *For Dummies* law The easier we make it the faster you'll understand it An extension of the successful *Physics I For Dummies* Covers topics in a straightforward and effective manner Explains concepts and terms in a fast and easy to understand way Whether you're currently enrolled in an undergraduate level *Physics II* course or just want a refresher on the fundamentals of advanced physics this no nonsense guide makes this fascinating topic accessible to everyone

day challenges with a more uplifted attitude and much less stress after having incorporated Louisa's proven suggestions

The Spirit of Digital Capitalism Jenny Huberman, 2022-09-12 Digital technologies are now central to the machinations of capitalism. How are they giving rise to new forms of capital accumulation and domination? And in what terms are these changes being promoted and justified by a new and incredibly powerful elite? This book takes on such questions. Beyond demonstrating how digital technologies make new forms of capital accumulation possible, Huberman interrogates the ideological transformations that have accompanied the emergence of digital capitalism. She examines how business gurus, entrepreneurs, and venture capitalists make claims about how digital technologies contribute to the common good, foster collaboration and connectivity, and render life more convenient, even if this convenience comes at the expense of values such as privacy and liberty. Ultimately, Huberman argues that the spirit of digital capitalism is Janus-faced and reveals deeper cultural contradictions at the heart of contemporary American society, promising in the same moment to liberate us and surveil us, enrich us and yet render our lives more economically precarious. Smart and thought-provoking, this book offers new perspectives that will speak to anyone interested in the contours of contemporary capitalism, particularly students and scholars of economic anthropology and sociology.
