

Practising Phonics

If your child is learning physics at school, you might want to support them at home. But first, convince *us* what to do.

My right to life and my right to life's companionship in the right persons is less than that of my right to life and my right to life's companionship in the right persons. My right to life and my right to life's companionship in the right persons is less than that of my right to life and my right to life's companionship in the right persons.

If you are not sure what your children's learning has been about, you may prefer to ask your child to prepare a presentation or write a letter to you about it. They will have to think about the **learning objectives** and also consider what to do if they do not understand the content.

Experiments showed that people were more likely to accept a bribe if the bribe was given in a public place, such as a restaurant, than if it was given in a private place, such as a hotel room. This suggests that people are more likely to accept a bribe if they are in a public place where they are more likely to be caught.
