Preventive Medicine Georg Michelson,2014-11-26 This book provides an up to date overview of the clinical applications methods and technologies of teleophthalmology within the field of preventive medicine The ability of novel methods to detect the initial signs of neurodegenerative diseases on the basis of alterations in the retina is reviewed and detailed attention is paid to the role of teleophthalmology in screening for vision threatening diseases such as diabetic retinopathy glaucoma and age related macular degeneration A major part of the book is devoted to novel imaging methods and the latest information technologies including advanced mobile communication and Web 2 0 applications in teleophthalmology In addition the initial projects of an interdisciplinary cooperation in preventive medicine are described All of the authors are experienced in the scientific and practical aspects of teleophthalmology including e learning and have produced a book that will meet the needs of all medical care providers interested in using teleophthalmology **Seven Mobile Apps in Seven Weeks** Tony

Hillerson,2016-08-01 Answer the question Can we build this for ALL the devices with a resounding YES Learn how to build apps using seven different platforms Mobile Web iOS Android Windows RubyMotion React Native and Xamarin Find out which cross platform solution makes the most sense for your needs whether you re new to mobile or an experienced developer expanding your options Start covering all of the mobile world today Understanding the idioms patterns and quirks of the modern mobile platforms gives you the power to choose how you develop Over seven weeks you ll build seven different

mobile apps using seven different tools You'll start out with Mobile Web develop native apps on iOS Android and Windows and finish by building apps for multiple operating systems using the native cross platform solutions RubyMotion React Native and Xamarin For each platform you'll build simple but non trivial apps that consume JSON data run on multiple screen sizes or store local data You'll see how to test how to build views and how to structure code You'll find out how much code it's possible to share how much of the underlying platform you still need to know and ultimately you'll get a firm understanding of how to build apps on whichever devices your users prefer This book gives you enough first hand experience to weigh the trade offs when building mobile apps You'll compare writing apps on one platform versus another and understand the benefits and hidden costs of cross platform tools You'll get pragmatic hands on experience writing apps in a multi platform world What You Need You'll need a computer and some experience programming When we cover iOS you'll need a Mac and when we cover Windows Phone you'll need a computer with Windows on it It's helpful if you have access to an iPhone Android phone and Windows Phone to run the examples on the devices where mobile apps are ultimately deployed but the simulators or emulator versions of those phones work great *On the Edge of the Panel* Julio Cañero, Esther

Claudio, 2015-09-04 To create a comic is not to illustrate words but to create narrative diagrams and transform strokes into imaging words The infinite array of possibilities that the merging of text and pictures provides is a garden of forking paths that critics have just started to explore This is an art that operates as the crossroads of various disciplines but whose specifications require a thorough understanding of its unique mechanisms The explosion of experimental works and the incorporation of previously marginal or nonexistent genres and themes in comics have enriched an already fruitful art in ways that continue to surprise both readers and critics This collection of essays offers a space of reflection on the cultural social historical and ideological dimensions of comics With this in the background the book focuses on three main areas the origins and definitions of comics the formal tools of the medium and authors and their works The historical and formal approach to comics as shown here is still essential and the debate about the origins and definition is still present but two thirds of this collection formulate other treatments that scholars had not started to tackle until recently Does this mean that the study of comics has finally reached the necessary confidence to abandon the artistic legitimization of the medium Or are they just new self defense mechanisms through alliances with other fields of academic interest This book will add to the debate on comics as did the international conference that led to it It provides a channel of communication with an art a two headed medium that like the god Janus operates as a hinge as a meeting point as a bridge between pictorial and literary expression Postdevelopmental Approaches to Digital Arts in Childhood Marissa McClure Sweeny, Mona Sakr, 2025-01-23

This book deconstructs traditional developmentalist logic around children's engagement with digital media where the focus is on what the digital does to children's bodies and brains Rather than seeing children as vulnerable and passive recipients the authors position children as co creators and digital artists embracing the richness of children's digital play The chapters

cover a wide range of topics including indigenous digital art digital drawing learning to code social media and artificial intelligence The authors use a diverse range of theoretical perspectives including posthumanism feminist new materialism social semiotics socialcultural and multimodal approaches to childhood to generate new ways of seeing the relationship between children and the digital The book includes chapters from academics and practitioners based in Australia Canada Sweden the UK and the USA and a companion website showcasing innovative and interactive material including visual essays and soundscapes

Advances in Ophthalmology and Optometry 2016 Myron Yanoff, Madhura A. Tamhankar, Elaine Wu, Allan E. Wulc, Jessica Ackert, Mary Aronow, Alan S. Crandall, Paul B. Freeman, Ronni M. Lieberman, Joseph M. Ortiz, Leonard J. Press, Aparna Ramasubramanian, 2016-10-15 Advances in Ophthalmology and Optometry reviews the most current practices in both ophthalmology and optometry A distinguished editorial board headed by Dr Myron Yanoff identifies key areas of major progress and controversy and invites expert ophthalmologists and Optometrists to contribute original articles devoted to these topics These insightful overviews bring concepts to a clinical level and explore their everyday impact on patient care Topics will cover all specialty areas highlighting the most current and relevant information in the field

Person-Centered Memory and Communication Interventions for Dementia Ellen M. Hickey, Natalie F. Douglas, 2021-03-19 Person Centered Memory and Communication Interventions for Dementia A Case Study Approach is the third volume in the Medical Speech Language Pathology book series It is a practical peer reviewed resource for speech language pathologists SLPs working with people with dementia In this unique text the authors cover a variety of evidence based clinical procedures for the memory communication and behavioral challenges of people with dementia The aim is to empower SLPs and other clinicians to implement practices that elevate the personhood of people living with various dementia syndromes Throughout this clinician friendly text the authors cover three main areas of focus elevating personhood the how tos of clinical procedures and the organizational level barriers and facilitators to implementation After an introductory chapter the next eight chapters describe a detailed case study that explains specific person centered assessment and treatment methods The cases depict a diverse group of people providing insights into the range of concerns and joys involved in supporting memory and communication in a manner that is culturally responsive and equitable Key Features The only dementia text that incorporates a culturally responsive approach to cases that reflect the increasing diversity of the aging population Specific examples of the how tos of person centered evidence based care Detailed personal assessment and treatment histories for each case with a table of goals and intervention procedures as well as illustrations of memory and communication strategies Each chapter starts with an At A Glance section to highlight the person and ends with a summary of key points of the treatment and implementation factors Uses a highly readable writing style with boxes tables and figures to support the text
