A Tough Job Made Harder Richard Lister, 2021-05-11 With pressure to perform free from error in America's most popular sport an impossibility the work done by football officials has become more difficult than ever. *A Tough Job Made Harder* explores how this has happened and looks at the challenges that lie ahead for the game and its officials. Cultural imperatives grounded in team allegiance have increased the stresses on football's judges to invariably get it right. Officials offer a path of low resistance for those channeling ire over a game's untoward outcome. Fans, coaches and players investment in their teams success often leads to anger toward the officials adding strain to those overseeing and judging the games. Even physical assault on officials is not unheard of in today's football. The increased demand for perfection has invited technology into

officiating Paradoxically the tools designed to cure mistakes have led to unintended consequences that have made the job even more daunting Fans expect officials eyesight to match the slow motion high definition images television affords And with increasing stress on player safety the burden to make the game safer has been added to those already borne by the profession Underappreciated for their skill and dedication the dynamics impacting the work and perceptions of it are leading to high attrition This trend is troubling for the game s future In *A Tough Job Made Harder* Richard Lister having consulted such preeminent officiating voices as Mike Pereira Jerry Markbreit Bill Carollo Dean Blandino and Terry McAulay looks at the demands on football officials as well as what makes the work so rewarding to those who embark on it Despite the proclivity for fans to criticize and lay blame on officiating those who undertake it do so with immense pride and professionalism In addition to *A Tough Job Made Harder* Lister has written *The Third Team NFL Officials Their Lives Their Stories* the only third person perspective on NFL game officials He also collaborated with renowned NFL offensive line coach Howard Mudd to write *The View From the O Line* an oral history of Mudd s career intertwined with those of twenty NFL offensive linemen whose career arcs led them to play football s most essential and underappreciated position
