Digital Organization Tips for Music Teachers Robby Burns, 2016-09-01. Are you a music teacher searching for sanity in the midst of all your chaotic responsibilities? Music teachers have to do so much more than teach music. They have to be master musicians, educators, and conductors, all while balancing other professional disciplines like arranging, composing, trip planning, financing, and more. The parts of the job that take our sights off of great teaching must be managed so that we can focus on what counts: the music. If you are feeling overwhelmed by the logistics of your job, you are in luck; there is an app for that. Actually, a lot of apps. And *Digital Organization Tips for Music Teachers* is here to tell you all about them. Whether you can barely turn your computer on

or if you are just looking for tips on how to make your work more efficient there is something in store for you The technologies in this book are presented in bite sized descriptions of desktop and mobile apps followed by applications of how they can solve specific problems that music teachers experience every day Each chapter covers a different type of data that music teachers have to organize ranging from notes to tasks to scores and audio recordings
