Re-imagining Schooling for Education Glenda McGregor,Martin Mills,Kitty Te Riele,Aspa Baroutsis,Debra Hayes,2017-03-08 This book provokes a conversation about what supportive schooling contexts for both students and teachers might look like and considers how schooling can contribute to a more socially just society It takes as its starting point the position of the most marginalised students many of whom have either been rejected by or have rejected mainstream schooling and argues that the experiences of these students suggest that it is time for schools to be reimagined for all young people Utilizing both theory and data the volume critiques many of the issues in conventional schools that work against education and presents evidence from the field in the form of data from

unconventional schooling sites which demonstrates some of the structural relational curricular and pedagogical changes that appear to be enabling schooling for education for their students It will be essential reading for students and researchers in the fields of education sociology and social work and will also be of great interest to practising teachers *EBOOK: From Vocational to Higher Education: An International Perspective* Gavin Moodie,2008-10-16 This book discusses current issues in vocational and higher education and the relations between them As well as concentrating on the well developed English speaking countries the UK US Canada Australia and New Zealand the book also considers important developments in continental Europe in particular The Bologna process in higher education The Copenhagen declaration on enhanced European co operation in vocational education and training The development of a European qualifications framework From Vocational to Higher Education is key reading for university lecturers those studying for higher degrees in higher education managers and policy makers *Risk Society and School Educational Policy* Grant Rodwell,2018-09-14 Risk Society and School Educational Policy explores the impact of risk society on policy in the US UK and Australia through both practical and theoretical perspectives The book develops an in depth understanding of risk society itself and guides the reader in applying this knowledge to the problem of how this impacts policy and practice in school education Drawing on work by Ulrich Beck and Anthony Giddens Rodwell explores the development of risk society as a field of interest discussing its history contemporary significance and links with neoliberalism school education and both mainstream and social media He also examines its impact on government policies and the practical implications of how this impacts the educational experiences of children around the globe today A book for policy professionals researchers academics and postgraduate students interested in Education Studies Theory and Policy and International and Comparative Education **Risk Society and School Educational Policy** is the first international academic monograph published in the field **International Perspectives on Early Childhood Education and Care** Susanne Garvis,Sivanes Phillipson,Heidi Harju-Luukkainen,2018-01-12 The first volume in this Early Childhood Education and Care in the 21st Century International Teaching Family and Policy Perspectives miniseries provides a snapshot of early childhood education and care from 19 different countries around the world The intention is to provide a description for the policy and provision for young children and their families in each of the unique contemporary contexts The selection of countries includes every continent in the world to provide variety across cultures socio economic status location population and other unique factors Some chapters also share the development and history of early childhood in their country including economic and political transitions that lead to changes in early childhood provision and policy The book provides essential takeaways for early childhood educators researchers early childhood organisations policy makers and those interested to know more about early childhood education within an international perspective **Global Perspectives on Catholic Religious Education in Schools** Michael T. Buchanan,Adrian-Mario Gellert,2015-10-05 This book covers theoretical aspects of Catholic Religious Education in schools and examines them from

multiple theoretical and contextual perspectives It captures the contemporary academic and educational developments in the field of Religious Education while discussing in detail the challenges that Religious Educators face in different European Asian African Australian American and Latin American countries The edited collection investigates how to pass on a Catholic heritage as a living tradition in diversely populated schools and communities In this way it explores and asserts the proper identity of Catholic Religious Education in dialogue with Catechetics and with the wider discipline of Religious Education As the different articles of this publication demonstrate through a series of interesting and critical points of view Catholic Religious Education is confronted with many challenges from the risk of marginalization to the confusion produced by a religious indifferentism leading to a strictly comparative or neutral method in the study of religions It is essential to take into account in our research perspectives that Catholic Religious Education is not only a subject but also a mission in the light of the diakonia of truth in the midst of humanity H E Cardinal Zenon Grocholewski Prefect Congregation for Catholic Education Holy See Vatican City Religious education teachers cannot by themselves overcome the ills of society but religious education can help to create better citizens of the world as some authors argue throughout this collection could not ask more from such timely and provocative collection It is a gift to the profession and to Catholic Religious Education Prof Gloria Durka Fordham University New York NY USA Academic Advising and Tutoring for Student Success in Higher Education: International Perspectives Emily Alice McIntosh, Wendy Gates Troxel, David Grey, Oscar Van Den Wijngaard, Liz Thomas, 2021-02-16

Assessing the Evidence in Indigenous Education Research Nikki Moodie, Kevin Lowe, Roselyn Dixon, Karen Trimmer, 2023-04-11 This book explores the current state of research on Indigenous education in Australia In particular these chapters focus on exploring deep and enduring questions about the failures of schooling to address the needs of Aboriginal communities This book provides a systematic analysis of existing research to explain how connection to culture and the recognition of Indigenous sovereignties and knowledges are the keys to Aboriginal excellence in schooling Promising Practices in Indigenous Teacher Education Paul Whitinui, Carmen Rodriguez de France, Onowa McIvor, 2017-10-28 This book provides a comprehensive overview of navigating the on going systemic challenges hardships and problems facing many indigenous teacher education programs today helping to foster a commitment to developing quality indigenous teacher education programs that are sustainable distinctive and excellent However despite a growing cadre of indigenous peoples working in teacher education there is still a noticeable gap between the uptake of what is being taught in conventional teacher education programs and how this translates to what we see student teachers doing in the classroom The often tricky and complex nature of indigenous teacher education programming also means that there are multiple realities approaches and pathways that require greater communication collaboration and cooperation The very nature of this complexity the book suggests requires a strength based and future focused approach built on trust integrity courage and respect for indigeneity as well as an understanding of what it means to be indigenous The examples and experiences presented identify a number of

promising practices that work well in current indigenous teacher education programs and beyond By promoting a greater appreciation for the inclusion of culturally relevant practices in teacher education the book aims to breathe new life into the hopes dreams and aspirations of indigenous teacher education programs moving forward *Transformative Change and Real Utopias in Early Childhood Education* Peter Moss, 2014-04-24 Early childhood education and care is a major policy issue for national governments and international organisations This book contests two stories both infused by neoliberal thinking that dominate early childhood policy making today the story of quality and high returns and the story of markets stories that promise high returns on investment if only the right technologies are applied to children and the perfection of a system based on competition and individual choice But there are alternative stories and this book tells one a story of democracy experimentation and potentiality in which early childhood centres are public spaces and public resources places where democracy and experimentation are fundamental values community workshops for realising the potentiality of citizens This story calls for transformative change but offers a real utopia both viable and achievable The book discusses some of the conditions needed for the story's enactment and shows what it means in practice in a chapter about project work contributed by a Swedish preschool teacher Critical but hopeful this book is an important contribution to resisting the dictatorship of no alternative and renewing a democratic politics of early childhood education It is essential reading for students and teachers researchers and other academics and for all other concerned citizens

Starting Strong V Transitions from Early Childhood Education and Care to Primary Education OECD, 2017-06-21 The transition from early childhood education to primary school is a big step for all children and a step which more and more children are having to take Quality transitions should be well prepared and child centred managed by trained staff collaborating with one another and guided by

A Teacher's Guide to Science and Religion in the Classroom Berry Billingsley, Manzoorul Abedin, Keith Chappell, 2018-01-29 A Teacher's Guide to Science and Religion in the Classroom provides practical guidance on how to help children access positive ways of thinking about the relationship between science and religion Written for teachers of children from diverse faith and non faith backgrounds it explores key concepts identifies gaps and common misconceptions in children's knowledge and offers advice on how to help them form a deeper understanding of both science and religion Drawing on the latest research as well as the designs of successful workshops for teachers and for children there are activities in each chapter that have been shown to help children understand why science and religion do not necessarily conflict The book highlights children's interest in the so called Big Questions that bridge science and religion and responds to the research finding that most children are missing ideas that are key to an explanation of why science and religion can be harmonious The book explores key concepts and ideas including Nature of science Power and limits of science Evolution genes and human improvement Miracles natural disasters and mystery Profiles of scientists including Galileo and Newton A Teacher's Guide to Science and Religion is an essential companion for preservice and practising teachers providing session plans and

pedagogic strategies together with a cohesive framework that will support teachers in fostering children's curiosity and enthusiasm for learning
