Faith in Life Donald J. Morse, 2018-09-18 This is the first book to consider

John Dewey's early philosophy on its own terms and to explicate its key ideas. It does so through the fullest treatment to date of his youthful masterwork, *The Psychology*. This fuller treatment reveals that the received view which sees Dewey's early philosophy as unimportant in its own right is deeply mistaken. In fact, Dewey's early philosophy amounts to an important new form of idealism. More specifically, Dewey's idealism contains a new logic of rupture which allows us to achieve four things: A focus on discontinuity that challenges all naturalistic views including Dewey's own later view; A space of critical resistance to events that is at the same time the source of ideals; A faith in the development of ideals that challenges pessimists like Schopenhauer and Nietzsche; and A non-traditional reading of Hegel that invites comparison with cutting-edge Continental philosophers such as Adorno, Derrida, and Žižek and even goes beyond them in its systematic approach. In making these discoveries, the author forges a new link between American and European philosophy, showing how they share similar insights and concerns. He also provides an original assessment of Dewey's relationship to his teacher, George Sylvester Morris, and to other important thinkers of the day, giving us a fresh picture of John Dewey, the man and the philosopher in the early years of his career. Readers will find a wide range of topics discussed, from Dewey's early reflections on Kant and Hegel to the nature of beauty, courage, sympathy, hatred, love, and even death and despair. This is a book for anyone interested in the thought of John Dewey, American pragmatism, Continental Philosophy, or a new idealism appearing on the scene. **Pomo Oz**

Niall Lucy, 2010-03-01. Demonstrating how ideas are in short supply and critical thinking is under attack in the present day, this unique study pits the author's brand of humor and intellect against conservative power brokers. Arguing the notion that free thought, not free trade, is the basis of democracy, these exciting and provocative essays engage with the most contentious issues of today. **The Sublime Today** Gillian B. Pierce, 2013-01-04. *The Sublime Today* considers contemporary applications of aesthetic philosophy and earlier theories of the sublime from Longinus, Boileau, Burke, Kant, and Hegel to current literary and cultural contexts. Today, aesthetic experience itself seems to be changing given the rise of new media and new conditions for the viewing and the reception of works of art. How might the rhetoric of the sublime be used to both describe our current situation and help formulate constructive responses to it? *The Sublime Today* collects the work of scholars in literature, film, art, and media studies and provides a forum for investigating the contemporary relevance of the sublime, both as it has been understood historically and as it has been formulated by more recent theorists such as Jameson, Lyotard, Kristeva, and others. The volume includes essays on literary readings of the sublime in Coetzee, Eggers, Lahiri, and Auster; essays on film and the visual arts in the work of François Ozon; and in recent participatory art and essays on how new technologies and media, as in media representations of 9/11, re-frame our relationship to the aesthetics of the sublime, especially as they intersect with questions of gender, the postcolonial, and the uneasy politics of terror. *London Fiction at the Millennium* Claire Allen, 2020-09-28. This book analyses London fiction at the millennium, reading it in relation to an exploration of a theoretical positioning beyond the postmodern. It explores how a selection of novels can be considered as

second wave or post postmodern in light of their borrowing more from mainstream and classical genres as opposed to formally experimental avant garde techniques It considers how writers utilise the cultural capital of London in a process of relocating marginalized subjugated or under represented voices The millennium provides an apt symbolic opportunity to reflect on British fiction and to consider the direction in which contemporary authors are moving As such key novels by Martin Amis Bella Bathurst Bernardine Evaristo Mark Haddon Nick Hornby Hanif Kureishi Andrea Levy Gautam Malkani Timothy Mo Will Self Ali Smith Zadie Smith Rupert Thomson and Sarah Waters are used to explore writing beyond the postmodern In this significant and welcome contribution to the field Allen provides us with a sophisticated detailed and rigorous study of the move in contemporary fiction beyond postmodernism as exemplified by London fiction Nick Hubble Brunel University London UK *A dictionary of postmodernism* Niall Lucy,2015 A useful and authoritative A Z of the critical terms concepts and central figures related to the origins and evolution of postmodernist theory and culture **Postmodern Literary Theory** Niall Lucy,1997 In this brilliantly provocative and comprehensively informative introductory text Niall Lucy shows the student how postmodern literary theory works what its origins are and what its consequences The Icon Critical Dictionary of Postmodern Thought ,1998 The Routledge Critical Dictionary of Postmodern Thought Stuart Sim,2002
