The Routledge Handbook of the New African Diasporic Literature Lokangaka Losambe, Tanure Ojaide, 2024-05-16

The Routledge Handbook of the New African Diasporic Literature introduces world literature readers to the transnational multivocal writings of immigrant African authors. Covering works produced in Europe, North America, and elsewhere in the world, this book investigates three major aesthetic paradigms in African diasporic literature: the Sankofan wave (late 1960s to early 1990s), the Janusian wave (1990s to 2020s), and the Offshoots of the New Arrivants (those born and growing up outside Africa). Written by well-established and emerging scholars of African and diasporic literatures from across the world, the chapters in the book cover the works of well-known and not so well-known Anglophone, Francophone, and Lusophone writers from different theoretical positionalities and critical approaches, pointing out the unique innovative artistic qualities of this major subgenre of African literature. The focus on the diasporic consciousness of the writers and their works sets this handbook apart from others that solely emphasize migration, which is more of a process than the community of settled African people involved in the dynamic acts of living reflected in diasporic writings. This book will appeal to researchers and students from across the fields of Literature, Diaspora Studies, African Studies, Migration Studies, and Postcolonial Studies.

Birders of Africa Nancy J. Jacobs, 2016-04-26 In this unique and unprecedented study of birding in Africa, historian Nancy Jacobs reconstructs the collaborations between well-known ornithologists and the largely forgotten guides, hunters, and taxidermists who worked with them. Drawing on ethnography, scientific publications, private archives, and interviews, Jacobs asks: How did white ornithologists both depend on and operate distinctively from African birders? What investment did African birders have in collaborating with ornithologists? By distilling the interactions between European science and African vernacular knowledge, this stunningly illustrated work offers a fascinating examination of the colonial and postcolonial politics of expertise about nature.
