Rediscovered Classics of Japanese Animation Maria Chiara Oltolini, 2024-01-25 *Rediscovered Classics of Japanese Animation* is the first academic work to examine World Masterpiece Theater Sekai Meisaku Gekij 1969 2009 which popularized the practice of adapting foreign children's books into long running animated series and laid the groundwork for powerhouses like Studio Ghibli. World Masterpiece Theater Sekai Meisaku Gekij 1969 2009 is a TV staple created by the Japanese studio Nippon Animation which popularized the practice of adapting foreign children's books into long running animated series. Once generally dismissed by critics, the series is now frequently investigated as a key early work of legendary animators Isao Takahata and Hayao Miyazaki. In the first book length examination of the series, Maria Chiara Oltolini analyzes cultural significance of World Masterpiece Theater and the ways in which the series pioneered the importance of children's fiction for Japanese animation studios and laid the groundwork for powerhouses like Studio Ghibli. Adapting a novel for animation also means decoding and re-coding socio-cultural patterns embedded in a narrative. World Masterpiece Theater stands as a unique example of this linguistic medial and cultural hybridisation. Popular children's classics such as Little Women, Peter Pan and Anne of Green Gables became the starting point of a full fledged negotiation process in which Japanese animators retold a whole range of narratives that have one basic formula in common: archetypal stories with an educational purpose. In particular, the series played a role in shaping the pop culture image of a young girl, sho-jo. Examining the series through the lens of animation studies as well as adaptation studies, Oltolini sheds new light on this long neglected staple of Japanese animation history.

Empey, Russell J.A. Kilbourn, 2023-08-24 Feminist Posthumanism in Contemporary Science Fiction Film and Media From Annihilation to *High Life* and *Beyond* places posthumanism and feminist theory into dialogue with contemporary science fiction film and media This essay collection is intimately invested in the debates around the posthuman and the critical posthumanities within a feminist critical theoretical framework In this posthumanist light science fiction as a genre allows for new imaginings of human technological relations while it can also be the site of a critique of human exceptionalism and essentialism In this way science fiction affords unique opportunities for the scholarly investigation of the relevance and relative applicability of specific posthumanist themes and questions in a particularly rich and wide ranging popular cultural field of production One of the reasons for this suitability is the genre s historically longstanding relationship with the critical investigation of gender specifically the position and relative empowerment of women The original analyses presented here pay close attention to audiovisual style including game mechanics facilitating the critical interrogation of the issues and questions around posthumanism Where typically the mention of SF in the posthumanist context calls to mind a whole set of often clichéd tropes the cyborg technologically augmented bodies AI subjectivities etc this volume s thirteen chapters analyze specific examples of contemporary SF cinema that engage in meaningful ways with the burgeoning field of critical posthumanism and that utilize such films to interrogate posthumanist and feminist as well as humanistic ideas *The Intelligence War in Latin America, 1914-1922* Jamie Bisher, 2016-03-07 World War I did not bypass Latin America Within days of the war s outbreak European belligerents

mobilized intelligence assets and secret diplomacy to compete for Latin America's allegiances and resources. This intelligence war entangled all of the American republics and even Japan. Dreary consular offices from the Rio Grande to the Straits of Magellan were abruptly thrust into covert activities trafficking in fugitives, running contraband and conducting sabotage. Revolutionary and counter-revolutionary movements, big oil, international banks and businesses were also drawn in. Drawing on long classified U.S. intelligence documents, this narrative of the Latin American intelligence war reveals the complexity and chaos behind the placid veneer of wartime Pan America. The author connects the dots between Mexico City, Buenos Aires, Guatemala City, Lima, Havana, Santiago, Rio de Janeiro, Berlin, London, Washington, Tokyo, and dozens of safe houses, front companies, consulates, legations and headquarters in between. Scores of unrecognized veterans of the intelligence war are revealed.

From teddy bears that guard sleeping babies to plastic soldiers and cowboys who lay siege to wooden block castles, toys are often the heroes of the stories children inspire authors to tell. In this collection of new essays, scholars from a great range of disciplines examine fictional toys as protectors of the children they love, as heroes of their own stories, and as champions for the greater good in the writings of A.A. Milne, Hans Christian Andersen, William Joyce, John Lasseter, and many others.
