Integrated Reporting and Performance Measurement Systems Bogusława Bek-Gaik, Anna Surowiec, 2023-11-15

Despite the development of innovative approaches to strengthen accountability and the quality of integrated reporting disclosures stakeholders are increasingly demanding more objective and unambiguous data Therefore the use of non financial performance measures that assist in collecting comparable information and the verification thereof by independent experts can help to establish trust in a firm s communication with its stakeholders Certainly non financial information should complement mandatory financial reporting to go beyond traditional financial ratios and link them to non financial risks and achievements This book examines the possibility of using information provided by performance measurement systems in the process of preparing integrated reports It presents an overview of the integrated report from the supply side which undoubtedly affects the quality and usefulness of the information presented as well as enhances the manner in which the data and analyses are suitable for independent assessment The book looks at the ways in which various groups of stakeholders management those who prepare non financial reports investors influence the scope of the key performance indicators KPIs used for integrated reporting purposes and what categories of KPIs are the most significant Further it analyzes which performance measurement systems provide information for the different components of integrated reports The book is interdisciplinary its thematic scope is at the intersection of accounting business reporting and business management and thus it provides an important source of knowledge for students scholars and researchers of economics finance and management It will also be a valuable guide for those preparing integrated reports or other forms of non financial reporting

Corporate Governance for Small and Medium-Sized Businesses in African Economies Dr. Chinyere

Almona, 2020-09-24 SMEs play a vital role in the growth of economies and are often described as the engine of economic development However SMEs in emerging markets struggle to survive and grow for a variety of reasons including a lack of finance and management skills Most of the growth constraining factors in small businesses can be traced to weak corporate governance CG practices As a seasoned practitioner in the field of corporate governance Dr Almona sees the need to build capacity to enhance sustainability in the SME sector SMEs need to understand that CG is not a destination but a journey SMEs need to grow and mature into CG practices that are relevant to their stage of business SME owner managers need to understand and adapt to the level of formality expected and required by potential employees and providers of funds This book provides ways and models that will encourage the adoption of sound corporate governance principles and practices for SMEs in Africa to the benefit of society

Continuous Auditing with AI in the Public Sector Lourens J. Erasmus, Sezer Bozkus Kahyaoğlu, 2024-09-18 The effectiveness of internal audit activities is important for the sustainability of change in the public sector In this sense the tools and techniques used and the level of competencies of public sector auditors are decisive This book deals with the effects of current technological developments in the public sector on auditing and risk management

activities Therefore it is a resource for public internal auditors to create a digital audit strategy based on artificial intelligence AI and blockchain based applications Institutionalisation of their structures is important for public sector internal auditors For this basic requirements future expectations and best practices are explained The digital business model is presented to produce value added audit findings and outputs that guide public internal auditors and all digital era stakeholders This book is a pioneering work based on continuous auditing continuous monitoring approaches using various AI and blockchain based tools and techniques There is nothing more valuable to the success of a public internal auditor than a detailed understanding of the business The important lesson in developing business knowledge especially in the new audit universe emerging with digital transformation is that all auditors must understand that they never finish learning about business processes risks and control points in the digital era They must constantly push themselves to be motivated and learn about the business operations they audit to implement new audit approaches powered by AI In addition to obtaining up to date business information from process owners and stakeholders public auditors responsible for conducting an AI based continuous audit programme should also look inside their departments for a different perspective on business information that impacts continuous audit programme phase details and has the potential to add value It should be noted that the additional source of information begins with your individual audit experience digital skills and qualifications
