Ecologically Unequal Exchange R. Scott Frey, Paul K. Gellert, Harry F. Dahms, 2018-07-04 At a time of societal urgency surrounding ecological crises from depleted fisheries to mineral extraction and potential pathways towards environmental and ecological justice this book re-examines ecologically unequal exchange EUE from a historical and comparative perspective The theory of ecologically unequal exchange posits that core or northern consumption and capital accumulation is based on peripheral or southern environmental degradation and extraction In other words structures of social and environmental inequality between the Global North and Global South are founded in the extraction of materials from as well as displacement of waste to the South This volume represents a set of tightly interlinked papers with the aim to assess ecologically unequal exchange and to move it forward Chapters are organised into three main sections theoretical foundations and critical reflections on ecologically unequal exchange empirical research on mining deforestation fisheries and the like and strategies for responding to the adverse consequences associated with unequal ecological exchange Scholars as well as advanced undergraduate and graduate students will benefit from the spirited re-evaluation and extension of ecologically unequal exchange theory research and praxis *National Climate Change Acts* Thomas L

Muinzer, 2020-12-10 This groundbreaking book collects contributions from many of the world's leading climate and energy law scholars and provides the first major study of national Climate Change Acts This cutting edge type of legislation originated with the first Climate Change Act framework which was passed in the United Kingdom in 2008 and is intended to enable the law to grapple effectively with one of the great problems of our times anthropogenic climate change Since 2008 national framework climate legislation has been slowly but steadily emerging in countries across the world This trailblazing collection employs a comparative analytical legal methodology and offers the first comprehensive study of this new innovative form of legislative regime In addition to containing broad internationalist chapters deep dive national case study chapters are included that focus on individual countries and provide analytical depth A final chapter draws together the threads of the book's foregoing contributions to deduce generalisable conceptual insights based on current knowledge and experience Uniquely the book provides a conceptual model for Climate Change Acts that can usefully inform the development of national framework climate legislation in all countries **Coalitions in the Climate Change Negotiations** Carola

Klöß, Paula Castro, Florian Weiler, Lau Øfjord Blaxekjær, 2020-11-22 This edited volume provides both a broad overview of cooperation patterns in the UNFCCC climate change negotiations and an in-depth analysis of specific coalitions and their relations Over the course of three parts this book maps out and takes stock of patterns of cooperation in the climate change negotiations since their inception in 1995 In Part I the authors focus on the evolution of coalitions over time examining why these emerged and how they function Part II drills deeper into a set of coalitions particularly new political groups that have emerged in the last rounds of negotiations around the Copenhagen Accord and the Paris Agreement Finally Part III explores

common themes and open questions in coalition research and provides a comprehensive overview of coalitions in the climate change negotiations By taking a broad approach to the study of coalitions in the climate change negotiations this volume is an essential reference source for researchers students and negotiators with an interest in the dynamics of climate negotiations

The European Union and Regionalism ,2025-10-06 While the EU is the most emblematic Regional International Organization RIO the regional perspective is largely absent in debates about the EU s identity and external posture What does the regional lens offer to the study of EU law How is the regional dimension reflected in EU policymaking and how does it impact norm production This book offers the first critical legal account of the EU as a RIO It brings together scholars from different disciplines to reflect on the construction use and misuse of the region in EU law and practice and to examine how this dimension interacts with other RIOS Brazil and Climate Change Viola Eduardo,Matías

Franchini,2017-10-23 Climate change is increasingly a part of the human experience As the problem worsens the cooperative dilemma that the issue carries has become evident climate change is a complex problem that systematically gets insufficient answers from the international system This book offers an assessment of Brazil s role in the global political economy of climate change The authors Eduardo Viola and Mat as Franchini expertly review and answer the most common and widely cited questions on whether and in which way Brazil is aggravating or mitigating the climate crisis including Is it the benign cooperative environmental power that the Brazilian government claims it is Why was it possible to dramatically reduce deforestation in the Amazon 2005 2010 and more recently was there a partial reversion The book provides an accessible and much needed introduction to all those studying the challenges of the international system in the Anthropocene Through a thorough analysis of Brazil in perspective vis a vis other emerging countries this book provides an engaging introduction and up to date assessment of the climate reality of Brazil and a framework to analyze the climate performance of major economies both on emission trajectory and policy profile the climate commitment approach Brazil and Climate Change is essential reading for all students of Environmental Studies Latin American Studies International Relations and Comparative Politics *Latin America and the Caribbean (LAC) Report* International Assessment of Agricultural Knowledge, Science, and Technology for Development (Project),2009 The International Assessment of Agricultural Knowledge Science and Technology for Development IAASTD looks realistically at how we could effectively use agriculture AKST to help us meet development and sustainability goals An unprecedented three year collaborative effort the IAASTD involved more than 400 authors in 110 countries and cost more than 11 million It reports on the advances and setbacks of the past fifty years and offers options for the next fifty years The results of the project are contained in seven reports a Global Report five regional Sub Global Assessments and a Synthesis Report The Global Report gives the key findings of the Assessment and the five Sub Global Assessments address regional challenges The volumes present options for action All of the reports have been extensively peer reviewed by governments and experts and all have been approved by a panel of participating governments The Sub

Global Assessments all utilize a similar and consistent framework examining and reporting on the impacts of AKST on hunger poverty nutrition human health and environmental social sustainability The five Sub Global Assessments cover the following regions Central and West Asia and North Africa CWANA East and South Asia and the Pacific ESAP Latin America and the Caribbean LAC North America and Europe NAE Sub Saharan Africa SSA **Global Political Economy** John Ravenhill,2005 Brings together leading international experts to provide an authoritative introduction to the major subject areas on undergraduate courses in global political economy Each chapter makes use of learning aids such as summary boxes chronologies case studies web links and further reading The Limits of Democratization Tatu Vanhanen,2009

Tectonic Growth of a Collisional Continental Margin Kenneth D. Ridgway,2007 The convergent margin of southern Alaska is considered one of the type areas for understanding the growth of continental margins through collisional tectonic processes Collisional processes that formed this margin were responsible for multiple episodes of sedimentary basin development subduction complex growth magmatism and deformation Two main collisional episodes shaped this Mesozoic Cenozoic continental margin The first event was the Mesozoic collision of the allochthonous Wrangellia composite terrane This event represents the largest addition of juvenile crust to western North America in the past 100 m y The second event is the ongoing collision of the Yakutat terrane along the southeastern margin of Alaska This Cenozoic event has produced the highest coast mountain range on Earth Saint Elias Mountains the Wrangell continental arc and sedimentary basins throughout southern Alaska Active collisional processes continue to shape the southern margin of Alaska mainly through crustal shortening and strike slip deformation large magnitude earthquakes and rapid uplift and exhumation of mountain belts and high sedimentation rates in adjacent sedimentary basins This volume contains 24 articles that integrate new geophysical and geologic data including many field based studies to better link the sedimentary structural geochemical and magmatic processes that are important for understanding the development of collisional continental margins Publisher s website *12th International Palynological Congress (IPC-XII)* Germany); International Organisation of Palaeobotany. Conference (8th : 2008 : Bonn International Palynological Congress (12th : 2008 : Bonn (Germany)),2008 **Integrated Resource and Environmental Management** Donald Scott Slocombe,Kevin Stuart Hanna,2007 The aim of this volume is to provide a coherent set of chapters that address major issues in resource and environmental management The book has a North American focus with significant but not exclusive Canadian Content Integration is the organizing theme of the volume Integration as a concept meaning variously integration across disciplines across agencies and across sectors has been a key theme in the policy and management rhetoric of virtually every agency in North America and abroad for more than 30 years As one of the dominant themes of the discipline integration has been addressed both as a component and as the main focus of a variety of texts for this course However there is nothing on the market at the moment that is both up to date and North American in approach **The Cenozoic Southern Ocean** Neville F. Exon,James P. Kennett,Mitchell J. Malone,2004-01-09

With the fragmentation of Gondwana the southern continents other than Antarctica drifted northward and the global climate changed. One of the two key separation points, Tasmania, Antarctica, the Tasmanian Gateway is the subject of this volume. What was the tectonic history of Tasmanian Gateway opening and how did gateway development impact sediments, ocean circulation and climate? The Cenozoic Southern Ocean Tectonics, Sedimentation and Climate Change Between Australia and Antarctica responds to such questions with new research and interpretations on three geological phases: the rifts before the gateway opened, the deepening gateway and changes in this part of the Southern Ocean as Australia moved northward from Antarctica.
