West Side Story, Gypsy, and the Art of Broadway Orchestration Paul Laird,2021-11-18 In this ground breaking study Paul Laird examines the process and effect of orchestration in *West Side Story* and *Gypsy* two musicals that were among the most significant Broadway shows of the 1950s and remain important in the modern repertory Drawing on extensive archival research with original manuscripts Laird provides a detailed account of the process of orchestration for these musicals and their context in the history of Broadway orchestration He argues that the orchestration plays a vital role in the characterization and plot development in each major musical number opening a new avenue for analysis that deepens our understanding of the musical as an art form The orchestration of the score in Broadway musicals deeply shapes their

final soundscapes but only recently has it begun to receive real attention Linked by a shared orchestrator in other ways West Side Story and Gypsy offer a study in contrasts Breaking down how the two composers Leonard Bernstein and Jules Styne collaborated with orchestrators Sid Ramin Irwin Kostal and Robert Ginzler Laird s study enables us to better understand both of these two iconic shows and the importance of orchestration within musical theatre in general [Clinician's Guide to Self-Renewal](#) Robert J.
