Intersectional Encounters in the Nineteenth-Century Archive Rachel Bryant Davies, Erin Johnson-Williams, 2022-08-11

Rachel Bryant Davies and Erin Johnson Williams lead a cast of renowned scholars to initiate an interdisciplinary conversation about the mechanisms of power that have shaped the nineteenth century archive to ask What is a nineteenth century archive broadly defined This landmark collection of essays will broach critical and topical questions about how the complex discourses of power involved in constructions of the nineteenth century archive have impacted and continue to impact constructions of knowledge across disciplinary boundaries and beyond academic confines The essays written from a range of disciplinary perspectives grapple with urgent problems of how to deal with potentially sensitive nineteenth century archival items both within academic scholarship and in present day public facing institutions which often reflect erotic colonial and imperial racist sexist violent or elitist ideologies Each contribution grapples with these questions from a range of perspectives Musicology Classics English History Visual Culture and Museums and Archives The result is far reaching historical excavation of archival experiences

The Olympic Games, the Soviet Sports Bureaucracy, and the Cold War Jenifer Parks, 2016-12-27 Using previously inaccessible archival documents this study provides a longitudinal investigation of the middle levels of Soviet bureaucracy responsible for overseeing Olympic Sport during the Cold War Spanning the period from the USSR's Olympic debut in 1952 through the 1980 Games held in Moscow this book argues that behind the high profile performances of Soviet elite athletes a legion of sports administrators worked within international sports organizations and the Soviet party state to increase Soviet chances of success and make Soviet representatives a respected voice in international sports Soviet officials helped expand the Olympic movement increasing the participation of women developing nations and socialist bloc countries while achieving Soviet political and diplomatic aims Soviet representatives over the course of only a few decades became a dominant and respected voice within international sports circles actively promoting Olympic ideals abroad even as they transformed those ideals to better align with Soviet goals In the process Soviet sports contributed to the evolution of Olympic sport integrating the Soviet Union into an emerging global culture and contributing to transformations within the Soviet Union Back home in the USSR the Sports Committee's leading personalities represented a new kind of Soviet bureaucrat who emerged in the late years of Stalinism and contributed to the professionalization of party state apparatus Standing at the intersection between state and society between Soviet political goals and their execution and between Olympic sport and Communist ideology mid level Soviet sports administrators demonstrated ideological drive political savvy and professional pragmatism providing the impetus expertise and experience to transform broad ideological constructs into specific policies and procedures in the Soviet Union and realize Soviet propaganda and foreign policy goals in international and Olympic sports
