Tiffany Moon, 2025-05-06 Doctor by day and Bravo's Real Housewife by night Tiffany Moon has a prescription for releasing perfectionism and finding joy As a self proclaimed good girl Tiffany was a people pleaser and straight A student fitting into roles that were prescribed by her Chinese American family As a lifelong overachiever she accomplished a thriving career as an anesthesiologist Yet Tiffany felt unfulfilled She spent more time at work than at home with her loving husband and twin girls didn't know how to say no to anyone and was governed by the external pressures of being perfect by standards set by society In *Joy Prescriptions* Tiffany shares the journey of how she reconnected with herself In order to feel whole she had to work on herself from the inside out She took surprising chances put herself first and embraced more creativity and laughter She dove headfirst into a candle business became a reality TV star tried her hand at stand up comedy and became a social media influencer Tiffany abandoned other people's expectations and started to live for herself ultimately discovering her true self *Joy Prescriptions* offers a healthy dose of introspection and healing that will release you from the constrained expectations of others and inspire you to explore who you really are You deserve a life that is authentically designed for more joy and more you **The Art of Teaching Children** Phillip Done, 2023-07-18 An essential guide for teachers and parents

that's destined to become a classic *The Art of Teaching Children* is one of those rare and masterful books that not only

defines a craft but offers a magical reading experience After more than thirty years in the classroom award winning teacher Phillip Done decided that it was time to retire But a teacher s job is never truly finished and he set out to write the greatest lesson of his career a book for educators and parents that would pass along everything he learned about working with kids From the first day of school jitters to the last day s tears Done writes about the teacher s craft classrooms and curriculums the challenges of the profession and the reason all teachers do it the children Drawing upon decades of experience Done shares time tested tips and sage advice Real learning is messy not linear Greeting kids in the morning as they enter the classroom is an important part of the school day If a student is having trouble look at what you can do differently before pointing the finger at the child Ask yourself Would I want to be a student in my class When children watch you they are learning how to be people and one of the most important things we can do for our students is to model the kind of people we would like them to be Done tackles topics you won t find in any other teaching book including Back to School Night nerves teacher pride the Sunday Blues Pinterest envy teacher guilt and the things they never warn you about in teacher school but should like how to survive recess duty field trips and lunch supervision Done also addresses some of the most important issues schools face today bullying excessive screen time the system s obsession with testing teacher burnout and the ever increasing demands of meeting the diverse learning needs of students But The Art of Teaching Children is more than a guide to educating today s young learners These pages are alive with inspiration humor and tales of humanity Done welcomes us like visitors at Open House Night to the world of elementary school where we witness lessons that go well and others that flop periods that run smoothly and ones that go haywire when a bee flies into the room We meet master teachers and new ones librarians and lunch supervisors principals and parents some with too much time on their hands We get to know kids who want to hold a ball and those who d rather hold a marker students with difficult home lives and children with disabilities youngsters who need drawing out and those who happily announce in the middle of a math lesson that they have a loose tooth With great wit and wisdom irresistible storytelling and boundless compassion The Art of Teaching Children is the new educator s bible for teachers parents and all who work with kids and care about their learning and success **Supervised**

Study in Mathematics and Science Stephen Clayton Sumner,1922 Guided Math Workshop Laney Sammons,Donna Boucher,2017-03-01 This must have resource helps teachers successfully plan organize implement and manage Guided Math Workshop It provides practical strategies for structure and implementation to allow time for teachers to conduct small group lessons and math conferences to target student needs The tested resources and strategies for organization and management help to promote student independence and provide opportunities for ongoing practice of previously mastered concepts and skills With sample workstations and mathematical tasks and problems for a variety of grade levels this guide is sure to provide the information that teachers need to minimize preparation time and meet the needs of all students Revisiting John Dewey Latasha D. Holt,2023-05-31 John Dewey is widely accepted as one of the greatest educational philosophers of all

time Over 100 years ago he warned that we must reset education Without change our society would suffer and our democracy would wither Now s the time to change This book builds on information Dewey shared regarding the basic educational necessities and compares his findings to what is really happening in today s schools Heart felt experiences are woven into the chapters and make us question the purpose of school what teachers are facing and if children really are the center This book is a glimpse of what Dewey might say to us today and without change why the future of our democracy is in trouble Sharing real world needs grounded in the basics every reader will look at education like never before United we can finally get education moving in the direction it should have been going 100 years ago **One-Sheet-A-Day Math Drills**

Neki C. Modi,Alpa A. Shah,2020-09-16 This One Sheet A Day math drill workbook is for 7th grade students who want extra practice with subtraction of squares roots fractions integers and decimals It contains 200 math practice sheets one for each school day of the year Upon completion the student will be more competent in 7th grade mathematics and ready to proceed with more difficult exercises Unlike other math drill books this is one of 24 workbooks created to establish a daily routine for each student to practice on their own from grades 1 through 7 It is specifically designed to gradually increase mathematic ability with the least amount of stress for both parent and student Kids need to practice at home to support what they are learning in school but finding resources to help with that goal can be daunting It takes a lot of time searching online for free resources to print or for books with enough exercises Beyond that the options include going to libraries enrolling them in an afterschool class or hiring a personal tutor Who has the time and money for all of that The answer is not many parents Each and every parent wants to provide enough practice work to their kids but on top of the challenges in finding resources questions remain about how much practice a child needs to boost educational success twenty sheets of practice work a day One sheet a week What s the optimum practice work during a whole academic year Confused The authors have a decade of classroom expertise and have spent a large amount of time researching and wasting resources trying all the options for their own kids Now you can benefit from what they have learnt The result is finding out that ONE SHEET A DAY is the optimum way to support classroom learning and it is amazingly simple This book eliminates the need to take home prints or run around franchises bookstores and libraries trying to find enough material It also prevents you from overwhelming your kids with too many math drill worksheets There are approximately 200 school days a year Simply have your child complete ONE per day Work is far easier when it is part of a routine especially for kids The One Sheet per Day program is an easy routine to start and maintain because it takes less than 20 minutes per day using basic skills your child already knows Simply take one sheet from the book ask your child to complete it in a quiet place and return it to you to check the answers a painless routine for you and your child and instant feedback for both of you Geared to follow most math curriculums most kids can do the appropriate sheet on their own based on what they are learning at school One Sheet A Day math practice drills will give your child practice they need to score higher on test day and build confidence in their math abilities Over-Tested and

Under-Prepared Bob Sornson, 2015-12-07 The curriculum driven instructional model has been the standard method of teaching for more than a century but it is consistently failing to produce well educated citizens and lifelong learners Pressured by standardized testing and rigid pacing guidelines teachers are forced to cover too much content too quickly without being able to meet the needs of individual students In this powerful new book from acclaimed author and speaker Bob Sornson you ll learn how shifting from curriculum based instruction to competency based learning can help students become more successful confident and engaged learners Topics include Understanding the curriculum driven model and the problems with cover and sort methodology Making the transition from curriculum driven to competency based learning Identifying crucial learning outcomes and giving students all the time and instruction needed to fully master these outcomes Building a positive teaching and learning environment And more Each chapter is short and easy to digest and provides compelling research strategies and anecdotes to inspire conversation and action Teachers administrators and community leaders will all find helpful resources and arguments for re working our current educational system into a new dynamic model of teaching and learning

Out of the Labyrinth Robert Kaplan, Ellen Kaplan, 2014-02-04 In this sparkling narrative mathematics is indeed set free Michael Shermer author of The Believing Brain In classrooms around the world Robert and Ellen Kaplan s pioneering Math Circle program begun at Harvard has introduced students ages six to sixty to the pleasures of mathematics exploring topics that range from Roman numerals to quantum mechanics In Out of the Labyrinth the Kaplans reveal the secrets of their highly successful approach which embraces the exhilarating joy of math s accessible mysteries Stocked with puzzles colorful anecdotes and insights from the authors own teaching experience Out of the Labyrinth is both an engaging and practical guide for parents and educators and a treasure chest of mathematical discoveries For any reader who has felt the excitement of mathematical discovery or tried to convey it to someone else this volume will be a delightful and valued companion

Teaching is a Human Interaction Alexis L. Jones, 2023-03-01 This book contains an argument supported by education philosophers as well as composite stories data and personal experiences The author mentions a number of scholars e g Benjamin 1988 Buber 1970 Noddings 2005 2013 Palmer 1983 van Manen 1986 1991 2000 who address important human issues in the field of education and she ties their work and hers to show common themes within the issues of care responsivity and relational ethics The first part of the book Introduction and Chapters 1 3 is primarily philosophical and the author shares the thoughts of the aforementioned scholars and others on topics relating to the very human work teachers do The next section of the book Chapters 4 6 combines theoretical works and empirical data to address the complexity and humanity of teaching While the work described in the aforementioned chapters may appear to present an idea of ethical teacher perfection this is not the case Teachers are not supposed to be nor are they logistically able to be all things to all children The final chapter instead addresses how stakeholders e g educators administrators parents can gently move our traditional education system toward this ideal This conclusion shares the ways teachers and teacher educators can

conceptualize the work on teaching as human interaction and use it to improve the teaching perception ENDORSEMENTS
Readers of this superb book will be convinced by the end of it that kindness and care are fundamental to good teaching
Based on vast teaching experience and a philosophy of care ethics Alexis Jones portrays teaching as a far messier human
interaction than is ever formally recognized Using scholarly debate and wonderfully narrated examples the book advocates
an ethics of care for teachers navigating interminable choices in almost every moment But beware thinking that teaching the
Alexis Jones way is a soft option Quite the contrary striving similarly for academic attainment and caring teacher student
relationships involves challenging endeavors for both teacher and student alike David Walker The University of Alabama

He Opens He's Eyes and He Closes He's Eyes Terri Powers, 2007-02-16 Detailed in this book are the incidents which are
often filed in a child's mind unknown to the adults around them Mostly these are the misunderstandings of things a kid sees
or hears often taken literally and mulled over in their heads for years either until the kid brings it up and has it explained to
him or gets older and figures it out on his own And in many cases the adults who were originally involved don't find out about
the kid's confusion for years to come Adults often do have their own ways of wording things and most often don't realize that a
completely different picture is forming in their child's brain many times an impossible scene I call these scenes Kiddie
Perceptions And also there are the times when an adult will take on the characteristics of a kid and just act silly for the thrill
of it This is another form of a Kiddie Perception often referred to as a second childhood Added to this are the times when an
adult tries something hoping for the easy way out of a situation when they should know better It always has a way of catching
up to them though All of these types of Kiddie Perceptions are laid out for you to see inside And all of the enclosed Kiddie
Perceptions are true Don't try this at home unless you're a kid or don't know any better **Misfits and Good Kids: It Gets
