Australia's favourite parenting authors and educators Maggie Dent explores the 10 essential building blocks that help children build resilience and self-esteem in our chaotic uncertain world. We can't change the world; however, we can help our children to develop emotional buoyancy and competence by experiencing life's joys and successes as well as its challenges and setbacks. When this is done within the safety of supportive relationships, especially in families and communities, one building block at a time, from birth to 12, children can grow into being the capable independent adults we all yearn to meet one day. About Maggie: Commonly known as the queen of common sense, Maggie Dent has become one of Australia's favourite parenting authors and educators with a particular interest in the early years, adolescence, and resilience. Maggie's experience includes teaching, counselling, and working in palliative care, funeral services, and suicide prevention. She is a dedicated advocate to quietly changing lives in our families and communities. She is the mother of four sons and a very grateful grandmother. Maggie is the author of 11 books, including her 2018 release *Mothering Our Boys*, which is already a bestseller.

Parenting Right From the Start Vanessa Lapointe, 2019-10-08. In this book, her follow-up to the bestseller *Discipline Without Damage*, Dr. Lapointe advises new parents how to put their child on a path to optimal development during the crucial early years. The baby and toddler years are the most important period for any child's emotional and psychological development. Parents naturally want to do what's best for their kids, but they often struggle to know what that is, especially when dealing with the big battlegrounds of sleep, feeding, and managing aggression. The latest scientific research indicates that it is through a strong and stable sense of connection to their parents that children learn how to regulate their emotions, master social skills, and develop a sense of identity. Unfortunately, many of the currently accepted parenting practices and traditional attitudes disrupt healthy connection rather than foster it, leading to behavioral issues and emotional problems that can last into adulthood. Dr. Lapointe helps parents to understand how mindful and conscious parenting can help them to avoid passing unhealthy patterns down from one generation to the next. Rooted in compassion and understanding, *Parenting Right From the Start* shows parents how to build a firm, caring presence in the early years that a child can lean into for a lifetime.

She writes with humor and depth, providing insight and strategies for many of the most important issues facing moms. There is a lovely ease to her writing and a powerful honesty. I hope every mother of a son and everyone else will read this book. The future of the world to a great extent depends on how we raise our boys. Michael Gurian, New York Times Bestselling Author of *The Wonder of Boys* and *Saving Our Sons*: If we can see the world through boys' eyes a little better, we will make different choices in the way we mother them, and we will find them less confusing and love them more deeply. Mothers of sons are worried about raising their boys in a world where negative images of masculinity are front and centre of our media almost every day. Not only that, but statistically, our boys are still struggling in many ways. Even though we live in a time where we recognise that nothing in gender is fixed, it remains a
