Studies in Persian Language and Literature 'Abdushshakūr Aḥsan,1992 Collection of articles previously published in various Pakistani newspapers and journals *MLA International Bibliography of Books and Articles on the Modern Languages and Literatures* ,2007 *The Gendered Language of Warfare in the Israelite-Assyrian Encounter* Cynthia R. Chapman,2018-07-17 Recognizing gendered metaphors as literary and ideological tools that biblical and Assyrian authors used in the representation of warfare and its aftermath this study compares the gendered literary complexes that authors on both sides of the Israelite Assyrian encounter developed in order to claim victory The study begins by identifying and tracing historically the presentation of royal masculinity in Assyrian royal texts and reliefs dating from the 9th through 7th centuries bce Central to this analysis is the Assyrian representation of warfare as a masculine contest in which the enemy male is discredited as a rival through feminization The second part of the study focuses on the biblical authors responses to the Assyrian incursion and demonstrates that the dominant metaphorical complex for recording and remembering Israel and Judah s military encounters with Assyria was that of Jerusalem as a woman This section therefore traces the evolving canonical biography of Jerusalem the Woman as her life story is told and remembered in relationship to Assyria In the final section of the book the contest of royal masculinity described in royal Assyrian texts informs the reading of the redactional history of Judah s memory of Assyria and the insights gained from the study of a feminized Jerusalem are applied to a rereading of the siege scenes of the Assyrian palace reliefs Innovative in its use of gendered language as the basis for historical comparison of biblical and Assyrian texts this book is the first to offer a comprehensive methodology for defining and assessing the impact of gendered language within texts of historically linked cultures This book also advances the discussion of what has been called inner biblical exegesis by offering gendered metaphors as a lens through which to trace the evolution of Judean social memory within the biblical text The New International Year Book ,1910 **Sotheran's Price Current of Literature** Henry Sotheran Ltd,1894 Bibliography of Asian Studies ,1994 **The Publishers' Circular and General Record of British and Foreign Literature** ,1888 **Time and Language** Ori Sela,Zvi Ben-Dor Benite,Joshua A. Fogel,2023-03-31 China s past and present have been in a continuous dialogue throughout history one that is heavily influenced by time and language the temporal orientation and the linguistic apparatus used to express and solidify identity ideas and practices Presenting a host of in depth case studies Time and Language New Sinology and Chinese History argues for and demonstrates the significance of New Sinology by restoring the role of language philology in the research and understanding of how modern China emerged Reading the modern as a careful and ongoing conversation with the past renders the new in a different perspective This volume is a significant step toward a new historical narrative of China s modern history one wherein ruptures can exist in tandem with continuities The collection accentuates the deep connection between language and power one that spans well across China s long past and hence the immense consequences of linguistic

related methodology to the comprehension of power structures and identity in China Each of the essays in this volume tackles these issues the methodological and the thematic from a different angle but they all share the Sinological prism of analysis and the basic understanding that a much longer timeframe is required to make sense of Chinese modernity The languages examined are diverse including modern and classical Chinese as well as Manchu and Japanese Taken together they bring a spectrum of linguistic perspectives and hence a spectrum of power relations and identities to the forefront While the essays focus on late Qing and early twentieth century eras they refer often to earlier periods which are necessary to making real sense of later eras The methodological and the thematic do not only converge but also generate a plea for fostering and expanding this approach in current and future studies
