Online Humanitarian Invasion Development Afghanistan International:

Humanitarian Invasion Timothy Nunan, 2016-01-26 Humanitarian Invasion is the first book of its kind a ground level inside account of what development and humanitarianism meant for Afghanistan a country touched by international aid like no other Relying on Soviet Western and NGO archives interviews with Soviet advisers and NGO workers and Afghan sources Timothy Nunan forges a vivid account of the impact of development on a country on the front lines of the Cold War Nunan argues that Afghanistan functioned as a laboratory for the future of the Third World nation state If in the 1960s Soviets Americans and Germans sought to make a territorial national economy for Afghanistan later under military occupation Soviet nation builders French and Swedish humanitarians and Pakistani supported guerrillas fought a transnational civil war over Afghan statehood Covering the entire period from the Cold War to Taliban rule Humanitarian Invasion signals the beginning of a new stage in the writing of international history

Researching Development NGOs Susannah Pickering-Sagqa, 2023-05-23 This book offers a critical insight into how the study of NGOs can be more theoretically grounded and methodologically creative The role of NGOs in global development has been the focus of considerable research and scholarship for the last four decades More recently scholars and NGO practitioners have begun to explore their relationships and how research can better inform practice and vice versa This book addresses questions arising from such research including how different theoretical perspectives can be applied to the study of NGOs what kinds of data can be used when trying to better understand NGOs and what methods can be used in studying NGOs Rather than evaluating the impact of NGO work this is a book about how researchers and practitioners can better understand what NGOs do and how they operate Bringing together work from a range of NGO researchers working across diverse disciplines and at varied stages of their academic careers the collection is supported by recent case studies in the field as well as dilemma boxes and discussion questions in every chapter As such Researching Development NGOs is an essential resource for postgraduate students of Research Methods in Development Studies NGOs and Development Management as well as practitioners wanting to find out more about the sector

Propaganda, Communication and Empire Sumanth Inukonda, Oliver Boyd-Barrett, Lara Martin Lengel, 2025-04-22 This volume interrogates the mediatized politics of western intervention in Afghanistan to gain a deeper understanding of the occupation within the broader transition toward a multipolar global order Accurate histories of western interventions and regional realities are often obscured or even eclipsed in the accounts of western mainstream media which if anything tend to rue the withdrawals and lionize the suffering of returning troops This volume investigates the state's role in the dark underbelly of the shortsighted interventionist media narrative as well as the dehumanizing portrayals of people living in the Afghanistan Pakistan region In its opening section the book critically evaluates the narrative of the Global War on Terror as well as the wars launched after 9 11 that destabilized the Middle East The chapters in the following section contextualize developments in Afghanistan with a historical framework that will problematize linear narratives that are

mobilized in support of interventions The chapters in the final section re present specific aspects of the geopolitical and humanitarian consequences that have eluded mainstream media workers including journalists and Hollywood moviemakers This book will be of interest to students of propaganda studies media and communication studies US foreign policy and international relations The Transformation of Capacity in International Development Avideh K. Mayville,2019-11-30 The Transformation of Capacity in International Development exposes the transformation of capacity within the development discourse through a discursive analysis of USAID projects in Afghanistan and Pakistan between 1977 and 2017 As development agendas increasingly call for human rights approaches to development and the foreign policies of donor states sound alarms over global security threats capacity development has emerged as the solution to the complex problem of development Through this examination of USAID s attempts to build capacity in Afghanistan and Pakistan the book exposes how Western notions of progress constructed by institutions government officials scholars and private sector actors are obscured by the transformation of capacity As agendas are translated into projects they perpetuate historical relationships of global inequality that have corrupted and compete with indigenous models of governance The Transformation of Capacity in International Development has implications for those considering the future of human rights based approaches to development the international management of global security threats and the sustainability of donor investments

Insurgency Online Michael York Dartnell,2006-01-01 In Insurgency Online Michael Dartnell focuses on a new form of conflict made possible by global communications The Internet Dartnell argues is affecting extensive changes to the way politics are carried out by inserting a range of non state actors onto the global political stage He demonstrates that Web activism raises issues about the organization of societies and the distribution of power and contends that the development of online activism has far reaching social and political implications with parallels to the influence of the invention of the printing press the telegraph and the radio Dartnell concentrates on Web activists who use the Net as a media tool distinguishing this use from information terrorism which threatens or harasses through hacking or electronic sabotage Using the examples of the Revolutionary Association of the Women of Afghanistan RAWA which opposed the Taliban the Peruvian Movimiento Revolucionario Tupac Amaru MRTA and its campaign against the Fujimori government and the Irish Republican Socialist Movement IRSM Dartnell evaluates the political implications and general character of Web activism among non state actors Insurgency Online shows that online activism is a ripe new territory for non governmental actors to raise awareness and develop support around the world **Challenging Cosmopolitanism** R. Michael Feener,2018-03-14 The first study of nineteenth century replication across art literature science social science and humanities **The military-humanitarian complex in Afghanistan** Eric James,Tim Jacoby,2016-09-10 Violent conflict brings together two seemingly disparate groups humanitarians and soldiers This mixes and convolutes agendas blurring lines that are often perceived to be sacrosanct Delving deeply into the history and reasons of why these two groups work in close proximity this study provide a unique

insight into the history ethical dilemmas and policy conundrums when aid workers operate close to the military Using Afghanistan as a case study analytical rigour deep primary research and field knowledge are combined in an exceptional contribution to this important area This book gives scholars and practitioners alike a nuanced perspective on the challenges faced by aid workers military personnel and decision makers alike in countries affected by violent conflicts hosting foreign military interventions and receiving international aid **Activist Feminist Geographies** Kate Boyer,LaToya E.

Eaves,Jennifer Fluri,2025-01-21 Exploring what it means to enact feminist geography this book brings together contemporary cutting edge cases of social justice activism and collaborative research with activists From Black feminist organizing in the American South to the stories of feminist geography collectives in Latin America the editors present contemporary case studies from the global north and south The chapters showcase the strength and vibrancy of activist engaged scholarship taking place in the field and serve as a call to action exploring how this work advances real world efforts to fight injustice and re make the world as a fairer more equitable and more accepting place *Proxy Wars from a Global Perspective* Pawel

Bernat,Cüneyt Güner,Cyprian Aleksander Kozera,2023-11-02 Proxy warfare is a growing international phenomenon Although states have used proxies in armed conflicts for centuries evolving regional and global security architecture is now forcing states to radically change the way contemporary conflicts are fought Based on ten case studies this reassesses exactly how these changing global and systemic factors are shaping the ways in which states use non state actors as proxies in their armed conflicts Examining the use of proxy warfare worldwide focusing on the last decade s conflicts this volume brings together contributions from scholars of international relations and global security studies in order to explore cases of armed conflict of particular regional and global significance These include recent developments in the conflict in Israel and Palestine the Central African Republic Libya Mali Central Asia Syria Ukraine Nagorno Karabakh Brazil and Yemen By drawing on both theory and practise it offers a re evaluation of contemporary understanding of outsourced warfare with policy implications for how we understand and negotiate with states using proxy warfare in the future *The Great Power Competition Volume 5* Adib Farhadi,Mark Grzegorzewski,Anthony J. Masys,2023-10-09 The Russian Invasion of Ukraine and

Implications for the Central Region addresses national security threats and strategic opportunities for the United States and its allies in the Middle East and Central Asia following Russia s invasion of Ukraine Recognizing that integrated deterrence is not constrained by geography or domain this book focuses on the complex threats and challenges confronting U S national security and foreign policy in a post Ukraine invasion environment That is to say what happens in Ukraine does not stay in Ukraine It affects everyone from the region to the cyberspace domain to people on the other side of the world due to changes in commodity prices Specifically this volume explores how revised analyses of Russia may alter U S and allied strategies in a shifting international system and within the framing of strategic competition Experts in this volume examine how the war in Ukraine will influence Russian strategy and foreign policy in the Middle East Central Asia and globally what effect the

Ukraine invasion could have on global and regional geopolitics and geoeconomics and the United States ability to protect national interests in the Central Region The reasons for this are multiple and complex In this volume we explore many issues that have confounded security experts by asking questions such as What happens after the Russian invasion What lessons did the U S Ukraine NATO and the European Union learn about Russia What lessons did Russia learn about itself and its military after the Ukraine invasion What lessons did the U S learn in Afghanistan that apply to Ukraine Why was the initial analysis of the Russian invasion so wrong How has power shifted in the international system since the Ukraine invasion How has the security environment shifted since the Ukraine invasion For the U S to continue supporting its partners in the Middle East and Central Asia it must anticipate what new opportunities will arise from Russia s missteps in Ukraine The Russian Invasion of Ukraine and Implications for the Central Region addresses these challenges and opportunities and informs policymakers on the changing contours of the Great Power Competition **Modern War and the Utility of Force** Isabelle

Duyvesteyn, Jan Angstrom, 2010-04-05 This book investigates the use and utility of military force in modern war After the Cold War Western armed forces have increasingly been called upon to intervene in internal conflicts in the former Third World These forces have been called upon to carry out missions that they traditionally have not been trained and equipped for in environments that they often have not been prepared for A number of these new types of operations in allegedly new wars stand out such as peace enforcement state building counter insurgency humanitarian aid and not the least counter terrorism The success rate of these missions has however been mixed providing fuel for an increasingly loud debate on the utility of force in modern war This edited volume poses as its central question what is in fact the utility of force Is force useful for anything other than a complete conventional defeat of a regular opponent who is confronted in the open field This book will be of much interest to students of strategic studies war and conflict studies counter insurgency security studies and IR Isabelle Duyvesteyn is an Associate Professor at the Department of History of International Relations Utrecht University in the Netherlands Jan Angstrom is a researcher at the Swedish National Defence College **Protracted Displacement in**

Asia Howard Adelman, 2016-04-15 In a protracted displacement situation refugees are sequestered in camps without right of mobility or employment their lives remain on hold and stagnate in a state of limbo for a long period This book reviews the situation and results of research and policies that have left refugees as a forgotten group in protracted situations The work features case studies by experts who conducted field work examining long term protracted refugee situations in Nepal Thailand and Bangladesh the protracted internally displaced IDP situation in Sri Lanka and the refugee and IDP situation in Afghanistan Also discussed is an emerging protracted refugee and IDP problem in Iraq The volume concludes with an analysis of the lessons learned and the applications for policy and incorporates a valuable bibliography detailing research in this hugely important area This is a critical resource for academics and policy makers concerned with migration and governance issues **Violence in the Domestic Sphere** Ingrid Westendorp, 2005 In this book State responsibility for

violations of citizens rights is assumed based on human rights standards and case law also of human rights bodies

Politics Between Nations Adebowale Akande, 2023-06-27 This multidisciplinary volume examines the meaning of global conflict and cooperation by international actors that can be caused by dis or misinformation to people and discusses how to build diplomacy for peace and regional cooperation The book further identifies boundaries of the relationships among the various governments of the world transatlantic alliances international organizations non governmental organizations transnational corporations and the overall interdependence of nations in the making of the modern world Topics discussed in this volume include diplomacy international relations theory Eurasia politics European Union Brexit Taliban taking over of Kabul government and the ongoing Afghanistan conflict terrorism ISIS and Al Qaeda international law international organizations interstate and intrastate war threats and challenges global civil society religion and culture The volume advances contemporary theories and concepts to explain these issues concerning peoples and cultures in the complex world we live in The book is a must read for students researchers and scholars of international relations political science political history political geography economics and law in general as well as diplomacy political communication and security studies in particular

CSA Political Science & Government, 2004 The Taliban Courts in Afghanistan Adam Baczko, 2023-10-21 How did the Taliban gain the trust of the Afghan population through decades of conflict How did they put themselves in a position to regulate social relations And with what consequences for Afghan society The Taliban Courts in Afghanistan Waging War by Law explores how the Taliban used the law as a resource in its conflict with militarily and technologically superior Western armies While the international coalition set up an inadequate and corrupt legal system the Taliban set up hundreds of courts in the countryside By insisting on due process impartiality of judges and the enforcement of verdicts this system of justice established itself as one of the few sources of predictability in the daily lives of Afghans The armed movement used law to substantiate their claim to embody the state disseminate their vision of society and establish local legitimacy Their courts attempted to balance the political agenda of the movement the demands of Islamic law the needs of the population and the expectations of international legal actors whose implicit recognition they desired In contemporary civil wars where dispensing justice is at once a juridical activity a political weapon and a stake in the war this book thus accounts for why the West lost the war and how the Taliban took over the country Based on the author's extensive fieldwork in various provinces in Afghanistan and unique access to Taliban judges and court users this socio legal investigation offers new perspectives on a country that was at war for over four decades Baczko proposes an innovative reflection on the place of law and courts in civil wars as well as a stark reminder of the dangers of foreign intervention Timely and thought provoking this book is appeals to a multi disciplinary audience including legal scholars political scientists sociologists diplomats policy makers and anyone interested in the Afghan conflict

Examining War and Conflict around the World David Jerome Ph.D., 2019-12-02 This volume addresses 10 issues pertaining to war and conflict such as ethics of war national security and

refugees and examines how countries around the world are facing these issues To truly explore war and conflict one must consider why the peoples and the leaders of the world behave the way that they do toward one another For instance why are refugees in a variety of circumstances treated so inhumanely in times of conflict and unrest through no fault of their own How are women and those in the LGBTQ community treated in terms of service to their country Examining War and Conflict around World includes ten chapters each addressing a specific issue relating to war and conflict as it pertains to a variety of countries including anti Americanism military robots and drones nuclear weapons and proliferation and torture Each chapter begins with an introduction to the issue Following the chapter introduction each chapter highlights that issue in eight countries Chapters provide historical perspective but the book addresses each of the issues in a contemporary context This work will provide an overview for all readers of ten very important topics that address matters relating to war and conflict in the twenty first century

Humanitarian Intervention Terry Nardin,Melissa S. Williams,2005-12-01 Somalia Haiti Bosnia and Kosovo All are examples where humanitarian intervention has been called into action This timely and important new volume explores the legal and moral issues which emerge when a state uses military force in order to protect innocent people from violence perpetrated or permitted by the government of that state Humanitarian intervention can be seen as a moral duty to protect but it is also subject to misuse as a front for imperialism without regard to international law In Humanitarian Intervention the contributors explore the many questions surrounding the issue Is humanitarian intervention permitted by international law If not is it nevertheless morally permissible or morally required Realistically might not the main consequence of the humanitarian intervention principle be that powerful states will coerce weak ones for purposes of their own The current debate is updated by two innovations in particular the first being the shift of emphasis from the permissibility of intervening to the responsibility to intervene and the second an emerging conviction that the response to humanitarian crises needs to be collective coordinated and preemptive The authors shed light on the timely debate of when and how to intervene and when if ever not to Contributors Carla Bagnoli Joseph Boyle Anthony Coates Thomas Franck Brian D Lepard Catherine Lu Pratap Bhanu Mehta Terry Nardin Thomas Pogge Melissa S Williams and Kok Chor Tan

Data Science and Security Samiksha Shukla,Hiroki Sayama,Kapil Tiwari,Joseph Varghese Kureethara,2025-09-24 This book presents best selected papers presented at the International Conference on Data Science for Computational Security IDSCS 2024 hosted by Christ Deemed to be University India and technically sponsored by The Tejas Scientific Researcher Foundation India from 08 09 November 2024 The book targets the current research works in the areas of data science data security data analytics artificial intelligence machine learning computer vision algorithms design computer networking data mining big data text mining knowledge representation soft computing and cloud computing
