Book Bodies Boundaries Vulnerabilities Interrogating Embodiment:

Bodies, Boundaries and Vulnerabilities Lisa Folkmarson Käll, 2015-10-30 This volume explores the interrelations between bodily boundaries and vulnerabilities It calls attention to the vulnerability of bodies as an essential aspect of having boundaries and being bound to other bodies The volume advances an understanding of embodiment as the central aspect of subjectivity its identity formation and its relations to others and the world The essence of embodiment is what connects us with others and in equal measure what distinguishes us from others The collection also addresses the centrality of the body to political and cultural activity targeting the role and constitution of norms in the regulation of bodies and the construction of spaces that bodies inhabit in constructing national and cultural identities It raises questions of how bodies and boundaries materialize in co constitutive relation to one another how bodies are situated and come to embody various bodies and intersections between different categories of identity and systems of value meaning and knowledge how the regulation and policing of bodies and the boundaries between them come to constitute bodies as being weak strong vulnerable or resilient and as having more or less fixed or fluid boundaries The chapters in the volume all demonstrate how individual human bodies are formed in relation to each other as they are regulated and distinguished from one another by larger collective bodies of nature culture science nation and state as well as by other human or non human animal bodies

Body/Self/Other Luna Dolezal, Danielle Petherbridge, 2017-07-25 Examines the lived experience of social encounters drawing on phenomenological insights Body Self Other brings together a variety of phenomenological perspectives to examine the complexity of social encounters across a range of social political and ethical issues It investigates the materiality of social encounters and the habitual attitudes that structure lived experience In particular the contributors examine how constructions of race gender sexuality criminality and medicalized forms of subjectivity affect perception and social interaction Grounded in practical everyday experiences this book provides a theoretical framework that considers the extent to which fundamental ethical obligations arise from the fact of individuals intercorporeality and sociality

Routledge Handbook of the Medical Humanities Alan Bleakley, 2019-07-31 This authoritative new handbook offers a comprehensive and cutting edge overview of the state of the medical humanities globally showing how clinically oriented medical humanities the critical study of medicine as a global historical and cultural phenomenon and medicine as a force for cultural change can inform each other Composed of eight parts the Routledge Handbook of the Medical Humanities looks at the medical humanities as a network and system therapeutic provocation forms of resistance a way of reconceptualising the medical curriculum concerned with performance and narrative mediated by artists as diagnosticians of culture through public engagement This book describes how the medical humanities can be used in and out of clinical settings acting as a point of resistance redistributing medicine s capital amongst its stakeholders embracing the complexity of medical instances shaping medical education promoting interdisciplinary understandings and recognising an identity for the medical humanities as a network effect This book is an

essential read for all students scholars and practitioners with an interest in the medical humanities *Living With Dementia* Lars-Christer Hydén, Eleonor Antelius, 2017-09-23 Traditionally dementia has been defined primarily in terms of loss of cognitive and communicative competencies loss of identity loss of personal relationships People living with dementia have been portrayed as increasingly dependent on others with their loved ones seen more as care givers than as spouses children and relatives However in the last two decades this view of the person living with dementia as an empty vessel has been increasingly challenged and the focus has shifted from one of care to one of helping people to live with dementia With contributions from an international range of expert authors *Living with Dementia* strongly advocates this new perspective through in depth discussion of what people with dementia and their loved ones can do and how they can actively make use of remaining resources Topics covered include How to involve people with dementia in collaborative activities in the home and the benefits this has on their cognitive and communicative abilities Ways in which identity can be presented and preserved through storytelling and the impact on identity of moving from home into residential care The benefits of a citizenship approach to dementia of recognising that a person living with dementia is an active agent with the right to self determination and the ability to exert power over their own lives This important new contribution to the dementia debate is truly enlightening reading for students across the full range of health and social care disciplines and offers a fresh perspective to existing practitioners and those who care for people with dementia

Ethical Humans Victor Jeleniewski Seidler, 2021-11-29 *Ethical Humans* questions how philosophy and social theory can help us to engage the everyday moral realities of living working loving learning and dying in new capitalism It introduces sociology as an art of living and as a formative tradition of embodied radical eco post humanism Seeking to embody traditions of philosophy and social theory in everyday ethics this book validates emotions and feelings as sources of knowledge and shows how the denigration of women has gone hand in hand with the denigration of nature It queries post structuralist traditions of anti humanism that for all their insights into the fragmentation of identities often sustain a distinction between nature and culture The author argues that in a crisis of global warming we have to learn to listen to our bodies as part of nature and draws on Wittgenstein to shape embodied forms of philosophy and social theory that questions theologies that tacitly continue to shape philosophical traditions In acknowledging our own vulnerabilities we question the vision of the autonomous and independent rational self that often remains within the terms of dominant white masculinities This book offers different modes of self work drawing on psychoanalysis and embodied post analytic psychotherapies as part of a decolonising practice questioning Eurocentric colonising modernity In doing so it challenges with Simone Weil Roman notions of power and greatness that have shaped

visions of white supremacy and European colonial power and empire This book will be of great interest to students and scholars of environmental ethics environmental philosophy social theory and sociology ethics and philosophy cultural studies future studies gender studies post colonial studies Marxism psychoanalysis and psychotherapy and philosophy and sociology as arts of living Cultures of Ageing and Ageism in India Kaustav Bakshi, Paromita Chakravarti, 2024-01-30 This book examines the discourses on ageing and ageism in Indian culture politics art and society It explores its representations and the anxieties fears and vulnerabilities associated with ageing The volume looks at ageing within the contexts of the larger discourses of gender sexuality nation health and the performance and politics of ageing The chapters grapple with diverse issues around ageing and elder care in contemporary India shifts in socio economic conditions and the breakdown of the heteropatriarchal family The book includes personal accounts and narratives that detail the daily experiences of ageing and living with disease anxiety loneliness and loss for both elders and their friends and families The book also explores the models of alternative networks of kinship and care that queer elders in India create in India as well as examining narratives in society art sports and popular culture that both critique and challenge stereotypical ideas about the desires aspirations and mental and physical capabilities of elders Topical and comprehensive this book will be useful for scholars and researchers of gerontology literature cultural studies popular culture sociology social psychology queer studies gender studies social anthropology and South Asian studies *Choreographies of Resistance* Tarja Väyrynen, Eeva Puumala, Samu Pehkonen, Anitta Kynsilehto, Tiina Vaittinen, 2016-12-07 *Choreographies of Resistance* examines bodies and their capacity for obstructive and resistant action in places and spaces where we do not expect to see it Drawing on empirical research that considers cases on asylum seekers beggars undocumented migrants and migrant nurses the book attests to the scope and diversity of corporeal resistance in the realm of politics It is shown that bodies that are not assumed to have political agency can obstruct and resist the smooth functioning of disciplinary practices that nowadays form the core of migration policies It is argued that the body is more than a mere target of politics In so doing the book contributes to the study of the political significance of movement mobility and the nonverbal The body opens up a space of political resistance and action The resistant body poses a challenge that is both praxical and philosophical it ultimately invites us to reconsider the meanings and content of political space community and belonging **America, History and Life** ,2007 Article abstracts and citations of reviews and dissertations covering the United States and Canada **Art Papers** ,2005 **Bodies in Transition** Dietrich Boschung, Harvey Alan Shapiro, Frank Wascheck, 2015 In cultural studies body and knowledge intersect Social practices implicate orders of knowledge and at the same time they shape human bodies which in turn endow abstract concepts with a concrete form Seemingly stable bodies are by their very nature frequently unstable forms as there are deformations disfigurements stigmatization fragmentation or the hybridity to composite beings and transgender persons The transgression of established boundaries can lead to confusion or terror The embodied knowledge is thereby short circuited turning order to

chaos One way of bringing transgressive bodies under control is through the visual fixation of the transition The image brings order into the chaos The contributions in this volume explore in interdisciplinary dialogues how forms of knowledge can be embodied in a concrete form that one can perceive with the senses In addition these articles investigate what happens after such concrete forms have been created what powers accrue to them and how they in turn impact the ideas that they represent

Embodying the Monster Margrit Shildrick, 2001-11-01 Written by one of the most distinguished commentators in the field this book asks why we see some bodies as monstrous or vulnerable and examines what this tells us about ideas of bodily normality and bodily perfection Drawing on feminist theories of the body biomedical discourse and historical data Margrit Shildrick argues that the response to the monstrous body has always been ambivalent In trying to organize it out of the discourses of normality we point to the impossibility of realizing a fully developed invulnerable self She calls upon us to rethink the monstrous not as an abnormal category but as a condition of attractiveness and demonstrates how this involves an exploration of relationships between bodies and embodied selves and a revising of the phenomenology of the body

Bodies Robyn Longhurst, 2001 This book introduces students to the key concepts and debates surrounding the relationship between bodily boundaries object materiality and spaces It uses interviews focus group data and case studies and will critically engage the students
